FOR IMMEDIATE RELEASE

CITY CONDUCTS COMMUNITY SURVEY ABOUT FIRE PROTECTION SERVICES

The City of Florence will be conducting a community attitude survey by mail during the next few weeks. The 22-question survey will be mailed to all registered voters residing in the City.

The survey is designed to assess current attitudes and opinions about Siuslaw Valley Fire & Rescue, the services it provides to the City's residents, and its overall role in the community. According to Florence City Manager Robert Willoughby, "We're really looking for feedback here. For most residents, there just isn't time to attend a regular City Council meeting. This seems like the best way to find out what people are thinking."

Residents who don't receive a copy of the survey in the mail will be able to pick one up at city hall. To help ensure confidentiality, a private firm will be tabulating the survey results. Completed surveys should be returned no later than January 30.
