The City's Budget Committee consists of the five elected Council members and an equal number of citizen members. Citizen members serve for a term of three years expiring January 31st.

The Budget Committee received the proposed budget May 4, 2015. After two public meetings on May 11 and 12 at which City staff made departmental presentations and addressed questions, the committee unanimously approved the budget as presented, including levying the full amount of the City's property tax rate of \$2.8610 and \$149,000 to pay voter approved bonded debt.

The City Council held a public hearing on the approved budget June 1, 2015. Later in the meeting the Council voted 5-0 to adopt the budget as approved, per Resolution number 11, Series 2015, including levying the City's maximum property tax rate of \$2.8610 and \$149,000 for voter approved bonded debt as approved by the budget committee.

City Manager's Budget Message

May 4, 2015

Honorable Mayor Henry, members of the Florence City Council, Citizen members of the Budget Committee, and citizens of the City of Florence:

It is my pleasure, on behalf of our City leadership team and staff to present the 2015-16 budget for the City of Florence. The budget totals \$33,877,033 and is balanced. The General Fund budget is \$7,360,672. City wide net spending totals \$17,825,964¹.

During the past several months, while the organization has continued to sustain current operations, the newly elected City Council and staff have worked diligently to review and discuss the various City operations and future plans, including, but not limited to, desired service levels, potential limitations and challenges, and projected funding. Through this process the City Council adopted seven broad goals and a five-year work plan. The goals and work plan have served as the foundation for the budget before you, which reflects our commitment to ensure Florence remains Oregon's Premier Coastal Community.

- City Service Delivery
- Economic Development
- Livability and Quality of Life
- Financial Sustainability
- Organizational and Capital Plant
- Communication and Trust, and
- Public Safety

Throughout the remainder of this budget message I will explain how these goals and work plan relate to the budget.

1 City Service Delivery. Sustain and improve the delivery of cost effective and efficient services to the citizens of Florence and our visitors.

2 Economic Development. Create a strategy and actions aimed towards sustaining and expanding the Florence economy.

3 Livability & Quality of Life. Sustain and improve the City's livability and quality of life for Florence residents and visitors.

4 Financial Sustainability. Sustain and improve the City's financial position, policies, and communication.

5 Organizational & Capital Plant. Sustain and improve the City's organizational structure, operations, and capital plant.

6 Communication & Trust. Sustain and improve the City's communications and strengthen citizen trust.

7 Public Safety. Sustain and improve the community's safety, perception of safety, and emergency preparedness.

¹ Net of inter-fund transfers and loans between funds of \$7,895,639 and of an ending fund balance of \$8,155,430

Sustain and improve – City Service Delivery

We have endeavored to ensure that the 2015-16 budget sustains and improves service delivery throughout all City operations. Budget highlights for each service area are listed below:

- Organization-wide
 - Full staffing (position vacancies filled)
 - Addition of net 1.5 FTE's
 - Continued investment in technology to help improve our efficiencies and effectiveness
- Public safety
 - Funding to maintain the Justice Center facility
- Water
 - 1.7% rate increase (*consistent with the annual change in CPI*)
 - \$660,000 investment in maintenance capital
 - \$550,000 investment in expansion capital (*capacity increasing funded by SDC's*)
- Wastewater
 - 1.7% rate increase
 - \$697,000 investment in maintenance capital
 - \$100,000 investment in expansion capital
- Stormwater
 - 1.7% rate increase
 - \$520,000 investment in maintenance capital
- Streets
 - \$0.50 increase per dwelling unit equivalent for street maintenance fee
 - \$1.6 million investment in street/sidewalk maintenance and upgrades
 - Includes \$440,000 for Rhododendron Drive paving
 - \$500,000 investment in capacity increasing street projects
- Parks
 - A full-time utility worker to maintain park is funded
 - \$240,000 investment in parks facilities, land, and equipment (requires securing grants)
- Community Development
 - No fee increases – evaluate building, planning, and development fee models
- Florence Event Center
 - Increased funding from transient room taxes
 - 20th year anniversary
 - Debt will be fully paid with an opportunity to invest in maintenance
 - Improvements in operational & marketing strategies
- Airport
 - Sustainable funding from a land lease for a new Public Works facility

Economic Development – Establish a Strategy to Sustain and Expand the Florence Economy

In March 2015, the Mayor hosted an Economic Development summit attended by thirty-four community leaders as well as State and County economic development professionals. The summit kicked off our economic development efforts. During the next several months and years we will see a number of issues discussed, an economic development committee formed and the determination of an economic development organization for Florence to help sustain our efforts.

We continue to work with the Florence Chamber of Commerce to retain and expand existing businesses. The City has realized a significant increase in transient room taxes (TRT) since fiscal year 2012-13 (22%). Therefore, funding for marketing services for Florence is budgeted at \$126,000, up from \$50,000 in fiscal year 2013-14. The increase in TRT also helps fund the Florence Events Center (FEC) and reduce the subsidy required by the City's General Fund. The General Fund transfer to the FEC is \$90,000, a reduction of \$55,000 from the current year.

The FEC will celebrate its 20th anniversary in 2016. Staff and volunteers are well underway with preparations for the celebration. The bonds issued to finance the construction of the FEC will be paid off this year, releasing transient room tax dollars received by the County for other purposes. We are meeting with County officials to discuss potential projects and programs, such as dollars to provide the FEC a facelift.

The reduced transfer to the FEC helps the General Fund to redirect funding elsewhere, such as the \$70,000 budgeted to help support development of a strategic vision and approach to grow and diversify Florence's economy, and other efforts included in the work plan, such as:

- Recruiting economics experts to develop a strategy on how to grow and diversify our economy
- Hosting community forums to broaden discussion around retention and expansion of businesses
- Conduct an inventory of Florence's labor pool
- Funding assistance toward a yet to be formed economic development organization.

Staff has been in conversation with our Regional Solutions Team out of the Governor's Office to identify next steps for fiber expansion in Florence. Based on these discussions, \$50,000 has been budgeted for a feasibility study, with an application submitted to the State of Oregon for a grant of \$45,000.

The Florence Airport, although a small general aviation facility, provides an economic benefit to the community in addition to being a valuable resource for public safety and emergency response purposes. Discussions are underway to reestablish the airport advisory committee. To help facilitate an understanding of the role of the airport, its potential, and its limitations, we have scheduled the professionals that drafted the airport's master plan in 2011 for a work session with the Council in August.

Initial economic development actions will be commenced in the coming year by a renewed focus on targeted capital investment in the urban renewal district. This is possible due to increased property values and the concurrence of the Florence Urban Renewal Agency (FURA) and City Council to use the City's Full Faith and Credit to underwrite debt for urban renewal projects. The budget includes a \$5.0 million full faith and credit debt issue, with a loan to FURA of \$3.7 million to refinance existing debt of \$1.665 million and provide program funding of \$2.035 million.

Sustain and improve – Livability and Quality of Life

In addition to the economic development efforts noted above, the budget includes increased funding for park maintenance, park improvements, and land acquisition as well as a lawnmower to better maintain the right-of-way.

After several years of discussion and preparation \$440,000 is funded to complete the first phase of street improvements to Rhododendron Drive. We will endeavor during the first and second quarter of this year to determine a strategy to secure funding to complete Rhododendron Drive and other desired street improvements. Other transportation related funding in streets include sidewalks and ADA ramps (\$50,000) and bike-lanes (\$10,000). The Street Fund budget also contains grant funding for the Rhododendron Multi-Use Path project (\$850,000).

A variety of and reliable transportation options is an important livability factor. The City of Florence provides public transportation services through the Rhody Express and River Cities Taxi. Included in the budget is a \$31,500 Non-departmental expenditure, which represents our cost share to provide a match for federal grant funding to operate the bus and the dial-a-ride program in Florence.

Within Community Development we have included plans to create an inventory of housing stock and pursued a transportation growth management grant to assist the City with this project. It is our intention to meet with the School District to discuss opportunities that we can work together to help improve service delivery for areas where are organizations intersect in areas of livability and quality of life.

Often thought of as separate from the City budget, projects done in partnership with FURA lend themselves to improving the quality of life for the City as a whole. The City's loan to FURA provides funding to develop a parking and signage plan for Old Town, design sidewalk, and other desired streetscape amenities for the entryways into Florence at the south end of Highway 101 and east from Highway 126. Additionally, art is funded for placement in public spaces within the urban renewal district.

Lastly, even though the local economy is recovering we recognize that some of our neighbors have not benefitted from the recovery or may be one accident or unforeseen event away from having financial challenges. To provide additional assistance to those in such situations, we have increased funding to Siuslaw Outreach Services (SOS) to a total of \$40,000, with \$20,000 from the

General Fund Non-departmental and additional funding from the Water and Wastewater funds for SOS to help those needing assistance to keep their utilities on.

Sustain and improve – Financial Stability

Financially, the City weathered the global and local economic recession fairly well. The organization is well positioned to move forward with the initiatives the goals and work plan set forth. Beginning fund balances, with the exception of Wastewater, are reasonable and provide sufficient funds in the event of a mild economic slowdown, delay in receipt of revenue, or unexpected repair cost of an infrastructure component failure. The five-year forecasts reflect the sustainability of current operations, with inflationary and growth related adjustments, with the exception of the Street Fund. As noted previously, we will have thorough discussions and engage the community to help make decisions on desired service standards for our streets and the next steps to address over \$7 million in deferred street maintenance projects.

The City's debt balances are very reasonable, with a July 1, 2015 estimated total, including FURA debt, of \$16.8 million outstanding, or approximately \$1,960 per resident. Debt planned in fiscal year 2015-16 includes \$7.8 million, of which \$1.88 million will be used to refinance existing debt. Additionally, during fiscal year 2015-16 an estimated \$2.5 million in principal will be paid, leaving an estimated ending outstanding debt of approximately \$20.2 million, or \$2,359 per capita. Subsequent forecasted borrowing is primarily related to streets and is subject to securing sufficient funding to repay the debt. Additional loans are anticipated in the future to FURA as they develop projects that increase property value within the district and increase their debt capacity to make additional investment. Further debt service information can be found in the long-term debt section of the budget document.

The budget includes incremental inflationary annual adjustments to utility fees as noted above, with the exception of the Street Maintenance Fee. The budget includes \$72,000 from Lane County related to a pending vehicle registration fee that is to be voted on May 19. If that measure fails, replacement funding will be needed to sustain the present plan, which amounts to an estimated additional \$2.50 per month per equivalent dwelling unit for the street maintenance fee².

We have budgeted funds to complete a comprehensive review of the City's financial policies, which will include an evaluation of fees, rates, and system development charges (SDC's) methodology during the coming year. We anticipate launching this effort in the first quarter, leveraging the budget preparation work. Our goal is to have policy decisions made in time to implement with the fiscal year 2016-17.

One of the key elements of the City's financial stability is the underlying valuation of real estate in Florence. We have been very fortunate that our real estate values did not decline as much as other communities and have begun to recover and are showing increased signs of a sustainable upward trend. The budget estimates that assessed values and the related property tax revenue

² The County measure failed. As noted, service levels and funding alternatives will be analyzed and discussed, with decisions made on both during the upcoming fiscal year.

will increase four percent (4.0%) over last year. If assessed value increases, it would be the second consecutive year that assessed values increased after five straight years of decline. The budget expects that the City will levy the full permanent rate of \$2.861 per thousand of assessed value and levy \$149,000 to pay voter approved general obligation bonded debt.

Our collective efforts to sustain and improve our quality of life on all fronts will help to maintain and enhance the value of all real estate in Florence, which helps the City and its residents.

Sustain and improve – Organizational and Capital Plant (Infrastructure)

Projects included in the budget are aimed at keeping our City in motion by providing a continued investment in our infrastructure systems. Much of the capital investment budgeted in fiscal year 2015-16 are visible projects such as parks, streets and sidewalks, the Justice Center, Florence Events Center, and the first phase of the new Public Works Operation facilities.

A summary of the City's \$7.0 million capital investment in the 2015-16 budget is as follows:

- \$2.1 million for street projects
- \$1.2 million for water projects
- \$1.2 million for wastewater projects
- \$0.5 million for stormwater projects
- \$1.4 million for a public works facility
- \$0.5 million for parks, building maintenance and technology

Additionally, the Florence Urban Renewal Agency budget includes \$1.025 million for capital projects to improve the urban renewal district.

Further information about the capital projects can be found in the applicable fund narrative and the capital section of the budget document.

Sustain and improve – Organizational and Capital Plant (Personnel)

The expectations included in the 2015-16 budget are high, as are those of the Council and myself. To achieve the work that lies ahead we must have employees that are dedicated to the organization and community. Our employee turnover the past two years has been fourteen percent (14%) and twenty-two percent (22%). Some of the turnover is related to reasons that can be anticipated, such as retirement, however, an increasing percentage of the turnover is related to employees pursuing opportunities elsewhere. This too can be a good thing, if planned for, however, the impacts of high employee turnover, particularly to an organization that has the workload included in this budget, can lead to underperformance, missed opportunities, and failure to achieve our goals.

As we have discussed, the City's compensation schedules have not been updated for many years. Additionally, past practices have resulted in pay adjustments for existing employees and pay for new hires that are inconsistent and unsustainable. This is an issue we must address in the near

future to ensure our employees are fairly compensated and that our operations are financially sustainable.

We have received and shared the results of a comprehensive compensation study for management and non-represented employees, which provides us good information from which to implement a compensation plan. The study's findings reveal there are several individuals that are paid below entry-level compensation for their respective positions. Anticipating that a compensation plan will be approved in the near future, the 2015-16 budget includes funding to increase pay for fourteen employees to the minimum of the suggested pay range. The financial impact of this change is approximately \$46,000 plus impacts to benefit costs such as FICA, Workers Compensation, PERS, and unemployment of approximately fifteen percent (15.0%). Further workforce details can be found in the personnel section of the budget document.

Until a compensation plan is completed by staff and approved by the City Council, we must continue our past practices. Therefore, the budget includes merit adjustments of an average of 2.0% (historically the range has been 0.0% - 3.0%) for management and non-represented employees. So that we don't fall further behind, the budget includes a cost of living adjustment of 0.5% for all management and non-represented positions. This adjustment is consistent with the pay adjustment originally proposed to our Florence Police Employees' Association employees described below.

We are presently engaged in labor negotiations with the Police Employees' Association for a contract to replace the agreement that expires June 30, 2015. Our compensation proposal includes a 0.5% pay increase, which is based on comparable compensation and benefits of organizations that would be used in a binding arbitration and an average of various inflation indices. The pay and benefits proposal we have made to the Police Employees' Association is reflected in the budget³.

Lastly, after several years of either reduced or stagnant staffing, the budget includes the addition of 1.5 FTE. A Park Utility Worker position will allow the Parks Supervisor position to move to a Field Supervisor position to oversee all public works field operations. The City Hall Clerk position replaces a half-time finance position and outsourced clerical staffing used by both finance and the City Manager's office. The new position will provide improved continuity and coordination throughout Administration and the organization.

The budget includes sixty-three and one-half full time equivalent positions (63.5 FTE's) with a budgeted citywide personnel cost of \$5,292,000 or 21% of all expenditures. We expect to be nearly fully staffed for the first time in many years as of July 1st.

³ The City and Polices Association agreed to a two-year contract, which includes a 1.5% COLA effective July 1, 2015.

Sustain and improve – Communications and Trust

It is critical to our success that we communicate what we plan to do and our reasons, and through that process engage the public for their feedback, before we move forward with decisions. This is a continual process, whereby trust is earned by receiving input and feedback to issues before decisions are made. Consistent with the goal to increase communication and trust, we engaged the City Council in the budget process beginning with the goal setting session in December. Furthermore, we involved the Council and Budget Committee with preliminary information to inform discussions and receive input for the budget in advance of its preparation. We have fully attempted to prepare the budget consistent with the information we have presented previously, inclusive of the feedback we have received.

To improve public access to our activities, we continue to invest staff time to update our website and make information easier for citizens and visitors to retrieve. The budget also includes our City newsletter, which we offer electronically.

A graphic with the text "Focus on Florence" overlaid on a background image of a city street scene.

As noted above, we are engaging the public in discussions about the economic future and direction of our City, the future operations of our airport, fiber network, and community development requirements. We will do the same for issues such as streetscape improvements on Highways 101 and 126, other improvements within the urban renewal district, our financial policies, and rates and charges that fund our City.

Sustain and improve – Public Safety

We have been well served by our former Interim Police Chief, Chief Lamm, who graciously came out of retirement to help us for the past year. We are very excited to welcome Chief Tom Turner to our City. Chief Turner brings a wealth of experience and knowledge of public safety activities and practices. Our police budget maintains our current level of service and funds needed Justice Center facility repairs. We anticipate that Chief Turner, after evaluation of the budget and discussions with the many partners the police department has, may request minor budget adjustments to address issues that we were not prepared to budget without his support, such as the evaluation of the jail as a correctional institution, the canine program, and school resource officers. Per our discussions with Chief Lamm these programs are generally offset with resources such as donations or funding assistance from other agencies.

We have made considerable progress with emergency management coordination with our public agency partners through our involvement as a member of the West Lane Emergency Operation Group (WLEOG). A change we have made organizationally is to move the funding contribution to WLEOG from the Police Department to the General Fund Non-departmental. This step recognizes that emergency management is more than a police function; it is an issue that involves all City operations. From our public works field workers, who ensure that our utilities and streets are operational during emergencies to the support staff that ensure financial and human resources are available, to communications with the public that are timely and accurate. It is our goal as a City to provide the governance structure and play an important leadership role that is engaged and aware to ensure emergency events do not create avoidable catastrophic loss.

Acknowledgements

We appreciate the dedication each of you provides to the community in your volunteer leadership roles and in turn the appreciation you have shown us for our efforts.

I would like to extend a personal thank you to each member of the management team and their staff for the information and insights they have provided in the preparation of this budget. Each of them is prepared to address any questions you or the public may have related to their respective budgets and their operations.

After having the responsibility to work with all the numbers, the changes, and make sure everything is balanced and makes sense, I have to say that having someone else with considerable previous experience to prepare the budget has allowed me time to engage with the mayor, councilors, our partners, business owners, and citizens. This has been invaluable to me as I've stepped into the City Manager position. I want to thank our Interim Finance Director Andy Parks for his assistance and leadership in the development of the budget.

The changes to the document and our presentation over what you've seen in previous years are aimed at improving our communication of what we plan to do and how it is to be paid for. With these improvements, and others that will be added as we move through the budget process, we intend to submit the budget to the Government Finance Officers Association (GFOA) for consideration of their Distinguished Budget Award. This award recognizes those organizations that are aware of the great value a document that can speak to various budget user audiences to inform themselves about the City's operations and its finances.

Additionally, I'd like to thank Larry Patterson, Interim City Manager June 2014 to February 2015, for his mentorship and guidance and Megan Messmer, Assistant to the City Manager, who has helped me each day, ensuring I don't let any item drop through the cracks.

I am very excited to present this budget to you and just as excited to see the work funded through the budget be completed. The purpose of our first Budget Committee meeting on May 4, at 5:30 p.m. was to receive the budget message and distribute the proposed budget document. Additional budget meetings were held May 11th – 13th at 6:00 p.m., for budget presentations, to receive public comment, committee discussion, and deliberate prior to approval consideration. The City Council adopted the approved budget at its June 1, 2015 regular meeting after conducting a public hearing.

Respectfully submitted,

Erin R. Reynolds
Florence City Manager/Budget Officer

City of Florence
A City in Motion

City Overview

About

Incorporated in 1893, Florence is a scenic seaside community at the confluence of the Siuslaw River and the Pacific Ocean. The City is located along the [Pacific Coast Scenic Byway](#) (Highway 101), only one hour west of Eugene, and is served by a marina and boasts its own airport.

The City has grown at a very modest pace since 2000, an average of 1.2% annually, to a population of 8,565 as of July 1, 2014. Similar growth is anticipated during the next several years. Additionally, an estimated 2,227 residents live outside the City but within the City's Urban Growth Boundary (UGB).

Florence's Historic Old Town is a charming 1900s fishing village that is built beside the Siuslaw River. The Port of Siuslaw has built a boardwalk along its updated and expanded marina providing up-to-date amenities for commercial and recreational users. The Siuslaw River Bridge which connects highway 101 across the Siuslaw is visible from much of Old Town. The Bridge, built in 1936, is in the midst of a major refurbishment project by the Oregon Department of Transportation. The project is scheduled for completion in 2018.

The Florence area is rich with outdoor pursuits. Beaches, parks, hiking trails, lakes, rivers and creeks are found throughout this premiere coastal community. The City has two golf courses, the world's first ever sandboard park, and is located minutes away from the Oregon Sand Dunes National Recreation Area. Within the Siuslaw National Forest, the dunes are the largest coastal sand dunes in North America.

The City also boasts its own Events Center. The Florence Events Center hosts popular annual events such as the Florence Festival of Books, the Celebrate Arts juried art show and the Winter Folk Festival. Additionally, the FEC is home to the Last Resort Players theatre company and the Seacoast Entertainment Association's annual concert series.

Form of Government

Florence operates under a Council-Manager form of government. The Mayor and City Councilors are responsible for hiring and providing direction to the City Manager, establishing policy, adopting budgets and approving City contracts. The Mayor and City Councilors are elected at-large. The Mayor serves a term of two years and the City Councilors serve staggered four year terms. The Mayor presides at official meetings and work sessions.

The Florence City Council meets the first and third Monday of each month at City Hall. Council meetings are video-taped and broadcast on cable channel 191. Additionally, videos of previous meetings are available on the City's website; <https://ci.florence.or.us/council/watch-past-city-council-meetings-online>.

Services

The City of Florence, from its elected officials to its field and clerical support staff are dedicated to professionalism, efficiency and effectiveness, and outstanding customer service. The City provides police, emergency dispatch, municipal court, water, sewer and surface water utilities, streets and sidewalks, events center, parks, airport, and community development; planning, building, engineering and code enforcement services. Additionally, the City has an urban renewal agency, the Florence Urban Renewal Agency (FURA), which is staffed by City personnel and overseen by a separate nine-member board that includes three City Councilors.

Fire and Rescue services are provided by Siuslaw Valley Fire & Rescue District, ambulance services are provided by Western Lane Ambulance District and the library is operated by the Siuslaw Public Library District. Public transportation services are provided by Lane Transit District, which operates the Rhody Express.

Florence lies within Lane County, which has five commissioners, elected by district. The County's administration is located in Eugene, sixty miles east of Florence. Florence is within District 1 West Lane, which is represented by Commissioner Jay Bozievich.

History

The Florence area was originally inhabited by the Siuslaw tribe, whose name to this day is shared by the river that flows through the country where these Native Americans once lived. Europeans first began traversing this region during the Golden Age of Exploration, when Spanish galleons sailed off the coast, charting the territory. Years later, on his northwest voyage, the famous English seaman Captain Cook explored the Oregon coastline, giving names to many present landmarks, such as Cape Foulweather.

In the second half of the 19th century, Anglo-Americans permanently settled the area that would become Florence. This rugged frontier community depended on logging and fishing for its economic survival. The town hit a population of 300 in the year 1900, at which time there were a lumber mill, two general stores, two canneries, a saloon, and a weekly newspaper.

One of the town's most complete mercantile stores, located in the Kyle Building, was built in 1901. Bulk goods, farm tools, hats, boots, and other items were sold here, providing residents necessities for life in what was a remote part of the state. The town's vital link across the Siuslaw River was provided by ferry boats until 1936, when the picturesque Siuslaw River Bridge was completed.

Some state that the city was named for state senator A. B. Florence, who represented Lane County from 1858–1860; another notion is that Florence was named for a French vessel that was wrecked at the mouth of the Siuslaw River on February 17, 1875.

Net FTE's - Citywide	58.3	57.8	62.0	63.0

Summary

City staffing was decreased due to revenue and activity reductions resulting from the extended recession that began in 2007. During the past few years the City has been able to restore staffing to previous levels including the addition in fiscal year 2014-15 of a Sergeant position, the return of the Planning Director after a tour of military duty, a Planner position, and an Office Coordinator position for the Florence Events Center.

The fiscal year 2015-16 budget includes the addition of a Utility Worker position dedicated to parks maintenance. The Parks Supervisor position is moved to a Field Supervisor position in Public Works Administration. An Accounting/Utility Technician position was reallocated from Public Works Administration to Administration (Finance) and a part-time Accounting position and part-time contracted administrative assistant position is combined into a full-time Administrative position (representing a net change of zero positions). The net change in total full-time equivalent positions for fiscal year 2015-16 is 1.1 FTE's, from 65.3 to 66.4 FTE's, and the net City FTE's is 63.0, an increase of one full-time position.

Total compensation, i.e., personnel services, budgeted for fiscal year 2015-16 is \$5.3 million, compared to the fiscal year 2014-15 budget of \$5.05 million, an increase of \$247,000, just less than five percent (4.9%).

The budget includes the following assumptions:

- A cost-of-living pay adjustment of one-half of one percent (0.5%)
 - The City and Police Association agreed to a 1.5% wage increase
 - The City has not paid a COLA to its non-represented employees for approximately nine years
- Merit pay for non-represented and management employees – discretionary – 2.0%
- Premium increase for health insurance – 18% - 21% depending on coverage
 - Health insurance for vacant positions budgeted with employee and spouse coverage
 - Health coverage for all current employees based on current coverage
- PERS rates effective July 1, 2015
 - Tier I/II 10.52%
 - OPSRP General 3.67%
 - OPSRP Police 7.78%
- No change to life, disability, workers compensation premiums
- Overtime varies by department and is based on historical and projected needs
- Fourteen employees that are presently compensated below the minimum pay amount for their respective positions, per a recent independent compensation study, are budgeted at the minimum amount for each position
 - This represents an increase in pay of approximately \$46,000

Salary Schedule – Non-represented Positions

Public Works Director	26	81,709	107,524
City Manager		88,512	121,800

A comprehensive compensation study was performed in 2014 that informed an update of salary ranges for all non-represented positions of the City. The City Manager is responsible for administering the City's compensation plan, which includes receiving approval from the City Council on the pay structure and associated benefits. The City Manager's compensation is established by the City Council. The Municipal Court Judge is not an employee of the City and receives compensation via a personal services contract.

General Fund

Summary

The General Fund accounts for the City's police, including corrections and emergency dispatch, municipal court, community development, parks, administration, City Hall facility operations, and discretionary non-departmental activities.

The primary revenue sources include property taxes, intergovernmental such as state shared revenues, cigarette and liquor taxes and various grants, franchise fees, license and permits, charges for services, transfers from other funds for administrative services benefitting those funds, and miscellaneous.

Highlights

- The General Fund is projected to have an ending fund balance as of June 30, 2015 in excess of \$2.0 million
- Property values are trending upward, resulting in stabilization and growth in property tax revenue
- Increased valuation and financing with the City's full faith and credit will facilitate significant investment in the City's urban renewal area and provide funding to the City's General Fund to reimburse the City for staff time related to those activities
- Funding for an economic development program
- Increased investment in parks maintenance and capital
- Targeted investment in technology to improve efficiencies and effectiveness
- Projected year-end fund balance, without borrowing, that is sustainable

Changes from previous year

- Increased funding from the Florence Urban Renewal Agency for services - \$100,000 total
- Investment in economic development program of \$70,000
- Consolidation of unappropriated ending fund balance - \$1,119,120

Revenue

Property taxes

The current year property tax levy is projected to increase approximately 3.86% to \$2.49 million compared to the fiscal year 2014-15 levy of \$2.38 million.

Intergovernmental

Revenue from continuing sources, such as liquor and cigarette taxes, and state share revenue are projected to increase slightly. \$200,000 in grant funds for parks (\$155,000) and a fiber study (\$45,000) represent the significant increase in this source.

Franchise fees

Revenue from franchise fees are projected to increase nearly five percent from current year estimates, 1.2% from the prior year budget. Mild winter temperatures and weather may have impacted reduced electricity related franchise fees in 2014-15.

Licenses and permits

Revenue from licenses and permits has strengthened during the past few fiscal years. The forecast for fiscal year 2015-16 includes a very conservative five percent increase over current year year-end estimates, which may also prove to be conservative.

Charges for services

Contracted police service is the primary charge for service and is projected to increase slightly.

Miscellaneous

Fiscal year 2014-15 receipts included a one-time insurance settlement of \$85,000 that was not expected. Excluding that item, miscellaneous items are projected to be similar to the current year in 2015-16.

Transfers

Revenue from transfers from other funds is increased by two items: planned FURA activity that will require considerable administrative and financial assistance resulting in a transfer increase to \$100,000 from \$7,000 and the reorganization for accounting purposes of a financial technician position that performs utility billing functions from Public Works Administration to Finance and Information Technology (impact of approximately \$50,000). Otherwise, transfers are increased to the other funds by approximately two percent (2%).

Overall, current year General Fund revenue is projected to increase by nine percent (9.0%) over the current year estimate.

Expenditures

Overall, operating expenditures are budgeted 8.3% above the fiscal year 2014-15 budget to \$5.0 million. Due to a number of temporary position vacancies during 2014-15, and the resulting reduced spending, budgeted operating expenditures in fiscal year 2015-16 is 14.7% greater than the current year-end estimates of \$4.4 million.

Capital spending in fiscal year 2015-16 is budgeted to decline by 20% from \$625,000 to \$500,000. A one-time property acquisition for \$370,000 is included in fiscal year 2014-15. Parks capital outlay in the amount of \$240,000 is budgeted, compared to \$10,000 estimated expenditure in

fiscal year 2014-15. A majority of the funds associated with these projects is contingent on securing grants as noted above.

Debt service is reduced slightly with the payoff of another loan (approximately \$7,500).

Lastly, transfers are reduced by approximately \$68,000, as increased transient room taxes that are directed to the Florence Events Center reduce the need for General Fund subsidy to the Florence Event Center Fund and the siting and construction of public works facilities at the Florence Airport reduce the need for General Fund subsidy to the Airport Fund.

Other requirements

The budget includes a contingency of ten percent (10%) of budgeted expenditures, leaving an unappropriated ending fund balance of \$1.12 million, or a planned carryover of \$1.69 million. The total amount budgeted for contingency and unappropriated ending fund balance of \$1.69 million reflects an increase of 3.3% above the amount of the original 2014-15 budget of \$1.63 million.

General Fund Budget Summary

Police

Summary

The Florence Police Department has three primary functions: Patrol, Corrections and Communications. The Patrol Division consists of three Sergeants, one Detective and nine Patrol Officers. The Corrections Division has one Corrections Officer, with Patrol also performing corrections duties. Our Communications Division is comprised of one Communications Supervisor and six Communications Officers. The Administrative Division functions in support of these divisions and is comprised of an Administrative Assistant, Lieutenant, and Chief of Police. The communications center of the Florence Police Department operates as the Western Lane 911 Public Safety Answering Point (PSAP), one of three PSAPs within Lane County and one of forty three within the State. Our area of responsibility covers over 700 square miles and has a year round population over 18,000. The jail was upgraded to a “Local Correctional Facility” in 2008, which allows for the detention of inmates for up to one year, and is one of seven municipal jails with this designation within the State of Oregon.

Highlights

- The department is projected to be at full staffing at the beginning of the fiscal year.
- Funding is included to perform exterior maintenance on the Justice Center (\$70,000).
- Increased activity levels in all operational areas.

Changes from previous year

- Funding for emergency operations coordination is included in non-departmental.
- Personnel costs for the three divisions have been separated to enhance management.

Community Development

Summary

The Community Development Department has three primary divisions: Planning, Building and Code Enforcement. In addition to the primary responsibilities, the department takes the lead and supports several other programs as described herein.

Planning is responsible for administering all current and long-range land-use related planning functions of the City. The department processes all land use development and change of use applications at the staff, Planning Commission and the City Council level. Planning also spearheads long range planning efforts, land use code review, policy implementation and overall coordinated development of the City. Planning also processes requests for annexation, right-of-way vacations and reimbursement district creation. In support of the above functions, planning staffs the Planning Commission.

In addition to land use functions, planning staff is the administration lead for park volunteer, transit and solid waste management programs. Staff processes requests for city park adoptions, tracking and leading inter-departmental reporting of volunteer hours and efforts. Transit functions include staffing the Transit Advisory Committee, updating contracts, coordinating the Bus Buddy program and developing Rhody Express ridership promotion efforts. In support of solid waste management, staff works with the Environmental Management Advisory Committee to coordinate solid waste rate reviews with solid waste service providers and consultants to evaluate service costs and calculate appropriate rates for Council review. Planning staff and EMAC also create and support solid waste prevention education and events to ensure that the City meets the DEQ's Opportunity to Recycle Requirements.

Building is responsible for administering all functions related to the execution of State Building Code regulations. Personnel process applications, review plans, issue building permits, perform inspections, and issue final occupancy permits. Staff processes requests for and payments of systems development charges, public infrastructure improvements and connections when associated with a construction project. They also work with the public to explain complex building codes and system development requirements. In addition, the staff processes sign permits, assigns addresses, and participates in the Western Lane Emergency Operations Group. Code Enforcement works with building and planning staff to address unpermitted work. He also handles nuisance code issues, animal control, excessive false alarm notifications, and on-street parking regulations.

Highlights

- Streetscape design planning for Highways 101 and 126 within the urban renewal district
- Solid Waste rate review will be conducted Fall 2015 with the cost shared equally between the haulers and the City
- Development interest and activity in 2015 is continuing to rebound

Changes from previous year

- The following position changes
 - Planning Technician to Planning Administrative Assistant
 - Senior Planner to Assistant Planner
- Lane County removed the requirement for cities to pay land use application fees for plan co-adoption
- Staff anticipates receipt of a TGM grant for funding an update to the Transit Plan to incorporate and illustrate the opportunity for a change in partnerships, service delivery and funding distribution
- Department is fully staffed

Parks

Summary

The City has more than 154 acres of parkland at twenty sites. Of these, thirteen parks provide recreational amenities such as playgrounds, trails, community gathering areas, and sports fields and other improvements. Of the thirteen parks, four are mini-parks or ‘pocket parks; two are neighborhood parks; five are special use parks; and one community park.

Florence’s park system includes four restroom facilities (Maple/Bay Street, Miller Park, Rolling Dunes Park, and Munsel Greenway Park); tennis courts (Rolling Dunes Park); a skate park (Miller Park); four baseball and two softball fields (Miller Park); an off-leash dog park (Singing Pines Park); basketball courts (Miller Park, 18th Street Pocket Park and Pepperoaks Park); and two picnic shelters (Miller Park and Rolling Dunes Park).

Our mission is to maintain our park and recreation facilities, including the trail network, in a safe and clean manner to support a variety of outdoor recreation opportunities. The past several years the City’s general fund has only been able to support the minimum level of maintenance of our parks. However, with the Council’s recent adoption of goals for the City, the budget reflects an increased emphasis toward the parks program.

The budget is aligned with sustaining and improving the delivery of cost effective and efficient park services to the community by providing a dedicated utility worker and increased funding of seasonal labor; sustaining and improving the City’s livability and quality of life by making several key investments in parks facilities; continuing to develop and nurture an adopt-a-park program, and pursuing several significant grants to leverage the City’s limited dollars.

The community has continued to provide financial donations and significant volunteer hours, demonstrating the importance of parks to the community. This has proved to be an innovative solution to enhance and maintain the existing park system. Boy Scouts of America Troop 721, Siuslaw Baseball Association, Sonshine Christian School, Delta Gamma of ESA, Florence Kiwanis Club and the Rhododendron Society are all examples of community groups committed to maintaining our parks system. However, even with this significant volunteer effort there are still many park operations, recreation programs and expansions that cannot be completed within the City’s existing resources. This issue will be explored further with a citizens committee during the upcoming fiscal year.

Highlights

- Transfer the Park Supervisor to Public Works Administration to more accurately reflect the true nature of the position working in the different areas of Public Works.
- Addition of a dedicated utility worker position for Parks maintenance.
- Increase of \$16,000 in contractual labor (seasonal) to provide additional maintenance hours and additional pass through costs from the employment agency for federally required health care premiums (*an example of an unfunded mandate*).
- Funding to purchase and develop a new riverside/beach park.

Changes from previous year

- Significant reinvestment in parks is budgeted in fiscal year 2015-16. A majority of the capital outlay items are dependent upon securing grants.

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Personnel services	65,321	66,554	69,232	68,000	64,700
Materials and services	39,483	54,129	62,613	61,300	80,560
Parks – operating	104,804	120,682	131,845	129,300	145,260
Capital outlay	55,568	-	10,000	10,200	240,000
Transfers	3,745	3,690	3,877	3,877	3,796

Total Parks	164,117	124,372	145,722	143,377	389,056

Performance Measures

- 154 acres of parkland.
- 13 active parks maintained, including one off-leash dog park, for a total of 54.23 acres.
- Daily cleaning and maintenance of four restrooms.
- 12.7 acres of turf area mowed.
- Monthly park play equipment inspections (10 structures).
- Maintain 2.45 miles of hard surface (asphalt) paths and 2.37 miles of soft surface (mostly gravel) trails.
- Maintain three outdoor basketball courts.
- Maintain two picnic shelters.
- Maintain four baseball and two softball fields.
- Maintain a skate park.
- Maintain 30 irrigation systems. These irrigation systems not only are for the active parks, but also Wilber Crest (landscaped right-of-way); traffic island on Kingwood (35th and Kingwood); right-of-way at Quince and Hwy 101; and City Hall.
- Maintain pedestrian scale streetlights in Old Town.

Municipal Court

Summary

The City operates a full-service municipal court including adjudication of cases typically processed by district courts, such as driving under influence and minor criminal cases that may result in jail time for convictions.

It is through municipal courts that many citizens come into contact with the judicial system, either as a defendant, victim, or witness. The Municipal Court staff provides equal access to a fair, equitable and effective system of justice without excess cost, inconvenience, or delay.

The Municipal Court employees facilitate the judicial process by administering the daily court business. They schedule trial dates, handle all official correspondence, and oversee a wide-variety of criminal cases and violations. Materials and services expenditures provide for contract services for our Judge, Public Defenders and a Prosecutor.

Highlights

- Contracted with a new collections agency and have improved collections on old cases
 - Fiscal year 2013-14 \$16,534
 - Fiscal year 2014-15 year-to-date \$21,614
- To increase the Court’s efficiency and effectiveness, and improve information sharing with the Police Department, a replacement software application is budgeted
 - Software and implementation - \$50,000, annual maintenance \$9,000

Changes from previous year

- The Court recently entered into a new probation monitoring service to assist with probation compliance.

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Personnel services	123,056	159,954	169,668	173,700	182,700
Materials and services	117,578	114,822	137,700	123,600	136,700
Municipal Court – operating	240,634	274,776	307,368	297,300	319,400
Capital outlay	-	-	-	-	50,000
Total Municipal Court	240,634	274,776	307,368	297,300	369,400

Performance Measures

- Successful implementation of new Court software.
- Reduction of non-compliance probation cases with the assistance of the contractor.

Activity Levels (Calendar Year 2014)

- Cases Filed: 2,098
 - Misdemeanors 541
 - Violations 1,557
- Cases Closed 1,314
- Total Fines Imposed \$200,000
- Total Fines Collected \$268,000
- Total Revenue Collected \$355,358

Staffing

Position	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Court Clerk	1.0	1.5	1.5	1.5	1.5
Court Administrator	1.0	1.0	1.0	1.0	1.0
Municipal Judge - contract	0.3	0.4	0.4	0.4	0.4
Total FTE's - Municipal Court	2.3	2.9	2.9	2.9	2.9

Capital Outlay

Description	Amount
Court software	50,000

Benefits of New Court Software

- Expanded data access
- Produce an electronic docket that can be updated online real time
- Produce automated phone call reminders, reducing staff time spent calling jurors and answering questions of defendants and jurors regarding scheduling
- Future connectivity with the state court system.
- Compatibility with current and future police technologies such as electronic ticketing.
- Digital storage of records, reducing the need to store duplicate records.
- Improved reporting capabilities.
- Ability to track non-compliance cases.

These benefits will have significant impact on the Court's operational efficiency and effectiveness, with improved transparency and collaboration internally and with other public agencies.

Administration

Summary

Administration is organized with the following functional services:

- Mayor and City Council
- City Manager’s Office
 - City Manager
 - City Recorder
 - Human Resources
- Finance and Information Technology

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget

Mayor and City Council

Mayor Joe Henry (center), and Councilors George Lyddon, Susy Lacer, Joshua Greene, Council President and Ron Preisler, Council Vice-President (left to right)

Summary

The Mayor and City Council provide leadership, legislative, governance and oversight for all City functions and operations. The Mayor is elected to a term of two years, while two of the four City Councilors are elected to staggered four-year terms, each two years.

Highlights

- The Mayor and Council are meeting with staff in regular work sessions to develop broader issue awareness and understanding and work toward policy decisions that are supported by the Council, staff and community.
- The Mayor and Council worked with staff to develop broad goal statements and a five-year work plan, including major objectives and tasks.

Changes from previous years

- \$5,000 in discretionary funding for the City Council to utilize to foster partnerships within the community is budgeted. These funds are available to the City Council as they respond to financial requests from community organizations throughout the year.
- Videotape meetings expense is consolidated into Council meeting expenses.

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Materials and services	24,961	28,682	40,194	34,700	45,500
Mayor and City Council	24,961	28,682	40,194	34,700	45,500

City Manager's Office

Summary

The City Manager's office provides oversight and direction to ensure that all departments are responding to the City's adopted work plan, applying policy consistently, and identifying key issues that need Council direction. The City Manager's office also provides staff support for the Florence Urban Renewal Agency (FURA).

Additionally, staff have responsibility for public outreach, elections, business / special events / liquor licenses, records retention, City communications, emergency preparation, economic development, human resources and information technology oversight and coordination.

Highlights

Recorder

- Realized a marked increase in administrative workload due to increase in City Council meetings and implementation of five-year work plan
- Completed business license code amendments after comprehensive review of policies
- Completed research and prepared filing of fuel tax referral
- Made large strides toward digitizing the City's historic records including scanning 8,000 historic building permit address files and seven years worth of Land Use permit files.
 - These records made up over 70% of the historic public records requests received by the City and the digitization of these documents has not only improved internal knowledge, but has led to a decrease in public records requests handled by staff due to improved online customer access
- Prepared code amendments related to medical marijuana facilities, taxation of marijuana and marijuana-infused products
- Prepared amendments for various boards and commissions including the Environmental Management Advisory Committee and the Planning Commission

Changes from previous year

- Changes to meet Goal 1 to deliver efficient and cost effective City services
 - Records Retention
 - Acquisition of additional fire safe / locking filing cabinets to meet state records retention standards.
 - Scanning of large building plans to complete digitizing of historic building / planning documents.
 - Move critical documents to off-site storage to get outside of tsunami zone.
 - Continued cleanup of City Hall including shredding / cleanup days in order to meet state records retention standards.

- A full-time clerical position, organized in the finance department, with workload shared with the City Manager’s office is included to replace a part-time clerical position and contracted services
- Erin Reynolds, formerly the City’s finance director, was appointed City Manager March 1, 2015.

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Personnel services	197,216	293,290	362,605	352,800	384,600
Materials and services	110,908	97,912	146,700	155,900	170,200
City Manager's Office - operating	308,124	391,202	509,305	508,700	554,800

Performance measures

- City Council Support / Elections / Boards and Commissions
 - 40 Council Meetings in 2014 (30% increase from 2013)
 - 12 Ordinances in 2014 (235% increase from 2013)
 - 20 Resolutions in 2014 (10% increase from 2013)
 - 9 Candidates for City Council office in 2014 (450% increase from 2012)
 - 24 applicants for City Committee positions in 2015 (400% increase from 2014)
- Business, Special Event, & Miscellaneous Licenses
 - 161 business licenses issued (no change from 2013)
 - 925 business license renewals (no change from 2013)
 - 48 special event licenses issued (5% increase from 2013)
 - 2 street closures (no change from 2013)
 - 4 sidewalk café permits (no change from 2013)
 - 3 taxi driver licenses (no change from 2013)
 - 10 liquor licenses (330% increase from 2013)
- Records Retention
 - 12 public records requests (30% decrease from 2013)
 - 74 airport billings (for 26 leases), 2 updated lease contracts (no change from 2013)
 - 8,000 historic building permit address files scanned & indexed
 - 7 years’ worth of Land Use Permit files scanned & indexed
 - 27 new contracts scanned, filed and indexed

Major Programs

Economic Development

Summary

The City Council's adopted goals and work plan includes a strong impetus toward economic development. Beginning in June 2014, the City has put additional focus toward this program by allocating staff time for coordination with many existing community groups including Florence Area Chamber of Commerce, Downtown Revitalization Team, Public Art, the Lane Economic Committee, Lane Workforce Partnership Strategic Solutions Team, as well as the Ford Leadership Pathways program. City staff representation on each of these groups represents a shift in culture for the City by providing more focus for economic development initiatives.

In addition, the City has begun work toward City work plan Goal Expand and diversify the Florence Economy by holding the initial conversations with the City Council and the community to determine the objectives and needs of the City. To this end, the City has established a placeholder of \$70,000 to work toward this goal, including the following objectives:

- Developing a strategic vision and approach to grow and diversity the Florence economy
- Determining the economic development organization of Florence
- Working with community partners to develop and implement a retention and expansion program
- Conducting an inventory of the area's labor pool.

Highlights

- Attended over forty (40) community meetings of various groups to coordinate work plans and build relationships
- Assisted Downtown Revitalization Team with the proposal to place banners along Hwy 101 and Hwy 126
- Completed code changes to the Old Town District to waive parking requirements for existing structures and reduce parking requirements by fifty percent (50%) for all new structures and additions
- Assisted Florence Regional Arts Alliance Public Art Committee with their work toward the creation of a City Public Art Committee
- Prepared for and staffed the Mayor's Economic Development Summit bringing together thirty-four (34) community leaders to discuss the Florence economy

Changes from prior year

- \$70,000 (included in the non-departmental budget) is programmed for work on the City's economic development initiatives.

Performance measures

- Property valuation within the City
- Transient Room Tax collections

Human Resources

Summary

Human resources oversees and supports the City's compensation and employee benefit programs, training, and employee wellness and safety.

Highlights

- Negotiation of Police Association contract
- Compensation study completed, with a goal to have the City Council formally adopt a compensation plan in the near future

Changes from previous year

- Project reduced employee turnover
- Adopt and implement a compensation plan
- Implement an human resource management application

Performance Measures

Workers Comp Statistics – 2014

The City experienced six claims, three involving time loss, with a total of 27 time loss days, and total annual cost of \$40,500. The City utilized City County Insurance Services' (CIS) Early Return to Work (ERTW) program to help reduce losses and facilitated completion of a project that the department had desired for some time. The City also obtained an ERTW grant of \$5,000 from CIS to complete a needed renovation.

Employee Turnover – 2014

The City's turnover percentage was 23% for 2014 (2013 - 14%). The breakdown by reason:

- Better job/more pay 6
- Personal 3
- Retired 2
- Relocation 1
- Did not pass probation 1

Recruitment – 2014

15 recruitments, including Police Chief and City Manager, which both were successfully completed in 2015

Compensation

In 2014, the City contracted with the Local Government Personnel Institute (LGPI) to conduct a comprehensive compensation study for our non-represented employees (Represented/Association employees' compensation is examined during the contract negotiation process). A study of this extent had not been performed since 2006. The study included important factors in addition to wages, such as employee health and retirement benefits. The study revealed that the City's current salary schedule is no longer at market. Though a majority of employees are compensated at market, there are several who are paid below the minimum compensation for their position responsibilities. As an interim step, the budget includes adjusting the salaries of these specific positions to the suggested minimum amount, an estimated City-wide impact of \$46,000 plus benefits. Management worked with the City Council to formerly adopt a compensation plan in July.

Wellness Program

The City has formed a Wellness Committee. The goal is to meet regularly to plan wellness events, determine ways to engage employees in the area of healthy living, and encourage them to set and attain personal goals. Our first event is a local Community Health Fair, 5k Fun Run/Walk in April, and several employees have registered. The second event is in May, as a number of employees will be walking the 5k route in the Rhododendron Festival Parade, along with the City's float entry. We are also in the process of launching a new online *Wellness Portal*, this is a free benefit CIS offers to its members. City staff will be able utilize the portal at their convenience. The system can store an abundance of wellness related data and assist employees with setting health improvement related goals, it also has wireless capabilities.

Safety/Risk Management

The City's Safety Committee consists of one or two members from each City facility. We meet monthly to discuss safety related topics and to also review and give feedback on any employee incident/accident reports which may have been submitted during the prior month. The committee members also conduct safety inspections every month, each City facility is on a quarterly inspection schedule. Our Public Works team ensures that risk related items discovered during an inspection are taken care of in a timely fashion in order to mitigate potential losses of

any kind. Recently City Hall was outfitted with a new fire alarm system as the prior system had not been fully functional for a number of years.

Staff Training

City staff receives training from a number of sources. The League of Oregon Cities and City County Insurance Services offer numerous training opportunities throughout the year. Law enforcement personnel utilize the Department of Public Safety and Standards for the majority of their training. Supervisors manage and approve training for their employees. City staff also has access to the CIS Learning Center and are able to register for free online courses and low cost instructor-led classes as approved. The Online Learning Center has nearly 500 work related courses and a significant number of instructor-led courses. Over the last 18 months 70% of our employees have utilized the Learning Center and taken 152 courses. 100% of our law enforcement personnel completed their required training for 2014, which resulted in the completion of 246 DPSST courses.

Communications

Summary

The City continues to produce a monthly newsletter, update important information on the City and FEC websites, and is now on social media. The City newsletter is distributed at the beginning of each month. The website and social media sites are updated nearly daily. City Council meetings are uploaded to Vimeo the day following the City Council meeting.

Highlights

- The City is now on Social Media – including Facebook and Twitter
- City Council meeting videos and other City videos are posted online via Vimeo
- Both the FEC and City Websites are now mobile friendly. They respond to the device being used and the display adjusts accordingly

Performance Measures

- Increase Facebook Likes to 1,000
- Increase Twitter Followers to 200
- Increase email distribution of City newsletter to 350
- Increase the types of videos posted to the City's Vimeo page

Activity Level

Finance and Information Technology

Summary

The finance and information technology department performs accounting, billing and collection, budgeting, financial reporting, payroll, accounts payable, and accounts for financial systems software and hardware acquisitions.

Highlights

- Comprehensive review of financial policies, revenue sources, and business practices and processes is programmed during the coming fiscal year

Changes from previous year

- A full-time clerical position, with shared workload with the City Manager’s office, has been added to replace part-time clerical contracted services.
- The budget document is changed to better reflect program activities
- Billing and collection practices will be reviewed and changes to increase efficiency and effectiveness and reduce costs are anticipated
- Financial reporting will shift to quarterly reports with addition of performance measures and status of work

	2012-13	2013-14	2014-15	2014-15	2015-16
Finance and Information Technology	Actual	Actual	Budget	Estimate	Budget

Total Finance and Information Technology	437,137	504,050	559,565	551,884	562,451

Performance Measures

- Receive an “Unqualified” opinion from the City’s independent auditor.
- Prepare timely and accurate quarterly financial reports – within thirty days of quarter end
- Submit the Adopted Budget document to the Government Finance Officers Association for consideration for a Distinguished Budget Award.
- Timely and accurately pay vendors 100%
- Timely and accurately prepare payroll 100%
- Timely and accurately bill customers 100%

Data will be collected and reported on to address the following performance measures, among others.

- Collection rate for customer accounts
- Number of shut-offs – the goal to reduce the number and improve collection percentage
- Earnings rate on investments relative to an appropriate benchmark

Note:

One of the accounting technician positions was previously accounted for in the Public Works Administration budget.

Information Technology

Summary

The City has been operating under a five-year Information Technology (IT) Plan to modernize its IT systems including City-wide connectivity. Beginning in fiscal year 2012, the City established an intranet, updated outdated workstations, implemented a VoIP phone system, upgraded server and backup capabilities, implemented online ticketing for the Florence Events Center (FEC) and online bill pay for utilities, upgraded and expanded its accounting software, updated both the City and FEC websites, and reinforced cyber security. These items were accomplished with the help of Feynman Group, our IT consultants, located in Eugene. Fiscal year 2015-16 is the final year of the current IT Plan.

For the past few years, IT technical assistance has been provided on an as requested basis. City staff sees the need to move to a more proactive maintenance approach where systems are monitored continuously to address issues before systems fail, resulting in costly repairs and downtime. The budget includes a change to the maintenance agreement to accomplish this objective.

Highlights

- In fiscal year 2014-15 the City will complete necessary redundancy features to transfer the dispatch center to the Fire Department with addition of a VoIP system installed at the Hwy. 101 Fire Station
- In fiscal year 2014-15 the City's Exchange Server was replaced. This server supports the City's email system
- The City's firewall was updated for increased security and compliance with the justice system
- Acquisition and implementation of Court software

Changes from previous year

- Implementation of continuous systems monitoring
- Update the City's IT Plan

Non-departmental

Summary

Non-departmental includes costs that are not directly associated with a particular department or its inclusion within that department, due to variability in program costs, may inadvertently impact trend information.

Included in the budget is funding of outside agencies, economic development and emergency management programs and transfers to other funds; airport, Florence Events Center, and Bond Debt Service Fund.

Changes from previous year

- Increased funding of Siuslaw Outreach \$ 3,700
 - Additionally, funds are budgeted in the various utility funds to provide assistance to customers in financial distress
- Funding for economic development program \$70,000
- Funding for emergency management program \$10,000
 - Previously funded in the Police Department
- Funding for a Fiber Study - (90% grant funded) \$50,000
- Reduced transfer to FEC (from \$145,000) \$90,000
- Reduced transfer to Airport (from \$22,400) \$10,000

	2012-13 Actual	2013-14 Actual	2014-15 Budget	2014-15 Estimate	2015-16 Budget
Materials and services	95,000	45,600	47,800	47,800	181,500

Total Non-departmental	170,051	104,962	619,525	614,525	310,557

Emergency Management

Summary

The City has become more actively involved in the regional emergency management group – West Lane Emergency Operations Group (WLEOG). City staff serves as the Chair of that group and has been actively involved in the regional emergency operations plan update occurring during 2015. In addition to regional efforts, the City has increased the training and preparedness of City staff for small and major emergency situations.

Highlights

- Currently updating Emergency Operations Plan and internal procedures through that process
- Established a City PIO and went to national training
- City participating as Chair of WLEOG
- Active shooter community response plan being worked on through WLEOG

Performance Measures

- Participate in a regional disaster table top exercise or drill
- Incorporate WLEOG EOP Update into City procedures
- Develop a Communications Plan
- Update the Continuity of Government Plan
- Increase number of staff with Emergency Operations training

Activity Level

- WLEOG Board Meetings Attended: Once per month
- Staff hours contributed to EOP update: 100+

Street Fund

Summary

The Street Division strives to provide a transportation system that is safe for pedestrians, bicyclists and the motoring public. It is the mission of the Division to provide a safe and efficient multi-modal transportation system, including sidewalks.

The City of Florence has 39.45 center lane miles (79.06 lane miles) of streets to maintain. Of these, 64.2% are in the very good condition class (PCI range 70-100); 22.9% are considered good (PCI range 50-69) and 12.9% are in poor condition. Although the street system Pavement Condition Index (PCI) average is 71, which is considered very good, there are several streets that require significant capital maintenance. The Budget budget initiates work on the backlog and provides a public process to determine the community's desired method(s) of funding and timing to address the deferred maintenance.

Highlights

- Revenues to support the department's services primarily come from state highway apportionment (State gas tax) and street utility fees
- The budget includes \$72,000 from the County vehicle registration fee
 - If the vehicle registration fee is defeated in the May 2015 election, the City Street Maintenance Fee will need to be increased (an estimate of \$2.50 per household) if other funding is not secured
- The hot oil chip seal program has one-time additional funding of \$25,000 for a total expenditure of \$100,000 in fiscal year 2016 to chip seal Rhododendron Drive from 35th north to Lighthouse Way. This project will protect the pavement until such a time that we can perform a combination of total street rehabilitation and grind/inlay
- During the first and second quarters of fiscal year 2016 a public engagement process to identify the preferred method of funding an estimated deferred capital maintenance project schedule of \$5.5 million

Changes from previous year

- The single-family Street Fee is increased \$0.50 (from \$5.00 to \$5.50) with a similar ten percent (10%) increase to all street fee components
- Pavement Preservation Program includes funding to complete a portion of Rhododendron Drive between 9th and Wildwinds streets
- Slight increase in the cost of electricity to operate the streetlights. We are forecasting a two percent (2%) increase from \$115,000 to more than \$117,000 per year
- The Transportation Enhancement Project to add 6-foot wide pervious pavement shoulders along Rhododendron Drive between 9th and Wildwinds streets is scheduled to start construction in late spring 2016

9-1-1 Tax Fund

Summary

The 9-1-1 Emergency Fund is used to account for revenue from the 9-1-1 telephone tax and user fees from various special districts for the operation of the Western Lane County Public Safety Answering Point (PSAP).

Funds are transferred to the City's General Fund for the operation of the PSAP through the Emergency Communications Division of the Police Department.

Highlights

- Time resources permitting, the cost allocation formula for this program will be reviewed with the participating agencies, including the police department

Changes from previous year

- No changes are proposed

Room Tax Fund

Summary

The Room Tax Fund accounts for the collection of the City's portion of the transient room tax and its disbursement to the tourism marketing program with the Florence Chamber of Commerce (40%) and funding for the Florence Events Center (60%).

Highlights

- TRT collections are projected to increase approximately 5.5% over fiscal year 2014-15

Changes from the previous year

- The disbursement to the Florence Event Center includes an additional allocation from fiscal year 2014-15 that exceeded budget authority (an estimate of \$12,300)

Did you know?

Lane County (5.0%) and the State of Oregon (1.0%) also collect a transient room tax within the City of Florence for a total 10.0% tax.

Florence Events Center Fund

Summary

The Florence Events Center (FEC) Fund accounts for the activities of the FEC. The primary sources of revenues consist of rental fees, ticket sales and event fees, intergovernmental revenues such as the Rural Tourism Marketing Project (RTMP) and operating transfers of Transient Room Tax (TRT) revenue from the Room Tax Fund, and a General Fund transfer subsidy.

The FEC is unique in that it is the only combination Conference Center and Professional Theater of its size serving a community with a population of 20,000 or less in the state of Oregon. The FEC provides a valuable and accessible service to the community enabling them to enjoy theater productions as well as a gathering place for a variety of occasions. The FEC also offers equipment rentals for off-site functions, which makes it convenient and safer for those in our community to remain local. Additionally, the FEC generates revenue for the business community as it draws attendees from outside our area for special events, conferences and festivals. Travel Lane County has distributed an economic impact equation that estimates a two-day conference with 100 attendees will generate approximately \$29,800 in revenue within the City.

Approaching its twenty-year anniversary, the FEC has been widely utilized, hosting over 7,000 events since its construction in 1996. In 2014 the FEC hosted 316 events with 244 being local users and the remaining 72 from out of the area. The FEC is often cited as one of a number of reasons, why people chose to relocate or retire in Florence.

Highlights

- Twenty-year anniversary in 2016
- FEC Volunteers
- Friends of the FEC
- Significant reduction in General Fund subsidy

Changes from the previous year

- Business Opportunity Fund (\$10,000) reduced by \$10,000 – program is in development phase
- General Fund subsidy reduced by \$55,000 (\$145,000 to \$90,000)
- Fee adjustment (offer rooms at a discounted rate M-F 8am-5pm)

Performance Measures

- Number of Events - In 2014 the FEC hosted 316 events, 244 were local users and the remaining 72 were from out of the area
- Number of Attendees – Approximately 52,000 people attended events at the FEC In 2014. It's estimated over 800,000 attendees have attended events at the FEC. Projections indicate the FEC will exceed 1 million attendees by 2018
- Volunteer hours - In 2014 the FEC had 73 individual volunteers donate 4,800 hours
- Ticketing percentage (on-line vs. box office)
 - In 2014 the FEC Box office had \$173,000 in ticket sales. 73% of the tickets were purchased through the box office with 27% of the purchases on-line.
- Percentage of Facility Capacity
 - In 2014 the theater/stage had 25% occupancy rate, it was utilized a total of 92 days in the year including performances and rehearsals.
 - The flat floor was utilized 56% of the time for a total of 205 days
 - 39 of the days had multiple events

Water Fund

Summary

The City's water system derives its source from the North Florence Sole Source Dunal Aquifer. The City currently operates 12 wells, three reservoirs and three pump stations, and delivers water to over 3,700 customer connections through approximately 62 miles of water mains. Presently, the City is able to produce and treat 3.0 million gallons of water per day through its state of the art treatment facilities.

The Water Division provides safe and reliable drinking water that meets or exceeds all Environmental Protection Agency (EPA) and State of Oregon standards for water quality. The division holds to these standards under normal, peak and emergency situations.

The primary responsibility of the Water Division is to operate, maintain, repair, and expand the water system while at the same time providing a high quality, dependable water supply to its customers. While its mission is to provide safe, reliable, cost-effective water supplies and outstanding customer service in an environmentally sensitive manner. The City encourages efficient water use with a goal of reducing water consumption by implementing the benchmarks as described in the approved 2010 Florence Water Management and Conservation Plan.

Highlights

- Request for funding to complete a water rate review and update/review of the Water System Development Charges
- Completion of Well #13. Last year rejected the bids received, which were at 200% of what was budgeted. With some design modifications, we are in a better position to re-bid the project and stay within the budget request
- The City enters into the third year of an outside services contract to repair and recoat the water reservoirs. The annual cost of the contract is \$250,000
- Old-line replacement program increased to \$500,000 to replace a water main within Hwy 101 between Nopal and Hwy 126 prior to ODOT's paving project of Hwy 101 in 2017
- The budget includes a transfer from the Water SDC Fund of \$550,000 to fund capital expansion projects
- The budget includes \$1.5 million in debt proceeds to fund major capital improvements – sufficient to fund scheduled capital projects and maintain a stable fund balance over the next five years
- Addition of \$7,500 funding to SOS for assistance to financially distressed customers

Changes from previous year

- Revenue includes a 1.7% (CPI) increase to water service charges
- Increase of \$30,000 in contractual services for a water rate review and SDC update
- Inclusion in capital for the purchase of a 35KW 480 volt emergency standby generator for the 31st Street Pump Station

Wastewater Fund

Summary

The City's Wastewater Treatment Plant is a conventional secondary activated sludge plant built in 1999, with an average dry weather capacity of 1.3 million gallons per day and a wet weather average daily flow of 4.3 million gallons per day. Presently, the City experiences an average flow of 0.85 million gallons per day. The wastewater system is comprised of approximately 93 miles of sanitary sewer lines, 38 pump stations plus 28 STEP (Septic Tank Effluent Pump) stations and serves over 3,700 customer connections.

The Wastewater Division is responsible for collecting and conveying wastewater from customers to the treatment plant in a well-maintained collection system, free of stoppages and spills. The wastewater collection system includes many miles of wastewater pipes and numerous wastewater pumping stations. The pumping stations provide a means of moving wastewater from areas lacking gravity sewer lines to an adjacent area where gravity lines exist.

The Wastewater Treatment Plant is located off of Rhododendron Drive at river mile 3.7. The City is responsible for meeting Department of Environmental Quality (DEQ) requirements concerning the treatment and disposal of all wastewater from the collection system, and operation and maintenance of all equipment needed to meet these requirements. Additionally, our Biosolids Management Plan allows the City to utilize a covered aerated static pile (CASP) system to compost the biosolids into a Class A product that can be distributed to the public.

Our mission is to provide cost effective and efficient wastewater collection, treatment and biosolids handling operations that are compliant with federal and state regulations, which will ensure a clean and safe environment for future generations.

Highlights

- During the current fiscal year, staff has been working with Lane County staff on providing wastewater service to Harbor Vista County Campground. It is anticipated that an annexation agreement will be signed and the City will be reimbursed for extending wastewater service to the park
- Funding to complete a wastewater rate review and update/review of the Wastewater System Development Charges (in the Wastewater SDC Fund)
- Increased capital expenditures to replace or repair major equipment and components at the wastewater treatment plant that have been deferred
- Completion of phase one gravity sewer line on Rhododendron Drive between 35th and Eden Lane, eliminating a sewer pump station and provide future capacity to this drainage basin
- Addition of \$7,500 funding to SOS for financial assistance to financially distressed customers

Changes from the previous year

- Revenue includes a 1.7% (CPI) increase to wastewater service charges
- Increase in capital expenditures to replace or repair critical capital equipment at the wastewater treatment plant. The boiler, which provides heat to the digester, failed during the fall of 2014. We have been able to make temporary repairs, however the entire unit needs to be replaced. Cost is \$60,000
- Repair of the clarifier drive unit, \$40,000
- Replacement of the sand slurry cup at the head works (separates the grit from the influent), \$25,000
- Replacement of the pipe video inspection equipment. The equipment is 16 years old, non-digital, and repair parts are becoming obsolete. Cost \$75,000
- Addition of \$7,500 funding to SOS for assistance to financially distressed customers

Performance Measures

- Process 0.85 million gallons per day of wastewater
- Complete wastewater line cleaning on a three-year cycle
- Complete video inspection of the wastewater system on a five-year cycle
- Provide repair and maintenance to City wastewater systems, including pump stations
- No sanitary sewer overflows or backups within the City's wastewater collection system
- Provide outstanding customer service to our internal and external customers

Effectiveness Measures

Stormwater Fund

Summary

The Stormwater Division is responsible for operating and maintaining the City's stormwater management collection system. The program has three objectives:

- Convey stormwater effectively to prevent localized flooding,
- Provide adequate water quality treatment of stormwater runoff to meet regulatory requirements, and
- Conduct street sweeping operations as a best management practice for stormwater management

Sweeping City streets on a frequent and regular basis helps to keep larger debris from going down storm drains, and sweeping with a regenerative air unit, such as ours, also removes all of the fine dust particulates out of the cracks and crevices. More often than not, fine dust particulates can be more damaging to stormwater runoff than larger debris. This dust can contain several different contaminants and toxins like vehicle lubricants, coolants and brake dust, petroleum products used in pavements as well as other contaminants that fall on road surfaces and where there is intense parking such as Old Town.

Whenever there is a rain event, anything left on the paved surface will be picked up by the stormwater runoff and flow into our local waterways. Our street sweeping program consists of sweeping all the public streets once per month and the streets within Old Town once per week.

The Stormwater Fund has proven itself to be a model for the other utility enterprise funds within the City. It is efficient, effective, sustainable and provides an outstanding service to the community. Our mission is to provide stormwater management in a cost efficient and effective manner that fully meets all regulations and does not negatively impact local rivers and streams, and to develop and preserve our drainage infrastructure in a manner that meets the community's needs.

Highlights

- Materials and services include funds to complete a stormwater rate review
 - An update to the Stormwater Master Plan and update and review of the Stormwater System Development Charges (SDC's) are funded in the Stormwater SDC Fund
- Completion of the Siano Loop stormwater project
- Complete engineering study and design for a stormwater project in the Pine Court and Willow Loop area

Changes from previous year

- Revenue includes a 1.7% (CPI) increase to stormwater service charges
- \$5,000 increase to stormwater system maintenance
- Funding for construction of two priority projects

System Development Charge Funds

Summary

The City has water, wastewater, stormwater and transportation system development charges (SDC's). Revenue from these charges are restricted in use to pay for qualified infrastructure improvements and related costs or the repayment of debt service associated with those costs. To ensure the funds for the respective SDC's are properly accounted for, separate funds have been established for each of the SDC's.

SDC revenue is accumulated in the various funds and transferred to the respective operational fund to provide funding for qualified expansion related projects. Additionally, this fiscal year each of the funds includes funds for consulting work to review the methodology of the SDC's, update the capital improvement schedules and the associated costs, and revise the maximum amount of the SDC. Additionally, the consulting effort will engage the City Council, builders, developers and interested parties with policy discussions and implications related to a range of potential decisions, from having no SDC's to charging the maximum SDC.

Changes from previous years

In previous years budgets the City reserved fund balances by classifying dollars that were not specifically appropriated to materials and services, capital outlay or transfers to the unappropriated ending fund balance category. This practice does not allow the governing board the flexibility to adjust budgets during the year, if necessary, without reconvening the budget committee. The budget utilizes a contingency appropriation instead to provide the governing board the flexibility to adjust spending appropriations, if necessary, during the year without having to reconvene the budget committee. For example, if a qualified project cost exceeds its original budget amount, it would not be possible to adjust the transfer amount from the SDC Fund to pay the cost, without reconvening the budget committee.

Water SDC Fund

Summary

The budget includes funds for SDC consulting work described above (\$15,000), bank charges associated with visa payments received (\$1,000), and a transfer to the Water Fund to fund the construction of Well #3 (\$350,000) and upsizing waterlines(\$200,000).

Highlights

- Transfer to Water Fund to pay for qualified improvement projects

Changes from the previous year

- Contingency is utilized rather than unappropriated ending fund balance to provide flexibility to the use of funds should they be needed during the current fiscal year

Wastewater SDC Fund

Summary

The budget includes funds for SDC consulting work as described above (\$15,000), bank charges (\$1,000) and a transfer to the Wastewater Fund to help fund the construction of the Rhody gravity sewer project (\$40,000) and the Harbor Vista project (\$100,000).

Highlights

- Funds are transferred to the Wastewater Fund for construction of two qualified projects.

Changes from the previous year

- Contingency is utilized rather than unappropriated ending fund balance to provide flexibility to the use of funds should they be needed during the current fiscal year

Airport Fund

Summary

The Florence Municipal Airport (FAA ID 6S2) is a Category IV general aviation airport located at 2001 Airport Way, near the southern end of the Florence city limits on approximately 139.77 acres. The Airport features a 60 x 3,000-foot paved and lighted runway; parallel taxiway; helicopter parking area; self-serve fuel (100LL and Jet A) which is available 24 hours, 7 days a week; Automated Weather Observing Station (AWOS) system; 18 aircraft tie downs; two business aircraft parking positions; two courtesy cars and bicycles are available for transient pilot and passenger use.

The airport serves predominantly small single-engine and twin-engine aircraft associated with transient and locally based general aviation aircraft activity. The airport also accommodates a limited amount of turbine aircraft activity associated with business aviation (turboprop or small business jet), occasional military or government related activity and helicopter operations.

Airport users have formed an Airport Volunteer Group (AVG), which provides invaluable volunteer services such as a frequent presence at the airport improving security and a willingness to perform tasks to keep the airport terminal building open seven days a week. Even with the volunteer efforts, existing revenue is insufficient to fund airport operations without a transfer from the City's general fund. The proposal to site the City's public works facility and pay ground rent will improve the airport's short- and long-term financial requirements.

Public Works mission for the airport is to provide a safe and functional general aviation airport facility while continuing to perform maintenance that complies with Federal Aviation Administration (FAA) safety standards.

Highlights

- Debt service expenditures of \$53,300, or forty percent (40%) of the budget, are to pay a loan that was obtained for the Kingwood Street expansion
 - This loan will be paid off in fiscal year 2016-17
- Fuel purchases budgeted in the amount of \$54,000 represent forty percent (40%) of the budget
- The remaining twenty percent (20%) of the budget is for insurance, utilities and maintenance of equipment
- The addition of lease revenue of \$30,000 from Public Works for a site for the Public Works Operations Facility

Changes from previous year

- Increase of \$5,100 in maintenance for increased costs associated with annual and tri-annual inspections of the AWOS system
- Ground rent for the public works facility in the amount of \$30,000
- General fund transfer reduced from \$22,400 to \$10,000
 - Projected to be last year of General Fund transfer
- Implementation of transfers from the Airport Fund to Public Works Administration Fund and General Fund - Administration to recognize a portion of the time contributions made by City staff in these areas (\$3,000 and \$1,200 respectfully)

Performance Measures

- 24 acres of turf area mowed and maintained
- Daily and monthly QA/QC on aircraft fuel and fueling system
- Bi-weekly security check on perimeter fencing
- Invasive weed control on 139.77 acres
- Daily runway light checks
- Bi-monthly sweeping of taxiway and ramp area
- 5,162 annual aircraft operations
- 33 based aircraft

Staffing

Staffing is provided by Public Works Administration

Did you know?

During the past four years, the City's cost of fuel has averaged approximately 85% of its fuel sales revenue, a margin of less than 18%.

Public Works Administration Internal Service Fund

Summary

Public Works Administration (PW Admin) was reorganized in fiscal year 2012 to account for costs related to the administration of all public works operations for the City. Public Works Administration is responsible for the planning, design, construction, operation and oversight of the City's major infrastructure systems. These systems include airport, parks, streets, stormwater, wastewater, water and City facilities.

Our core values are professionalism, respect, integrity, dedication and enthusiasm. We proudly provide stewardship and professional management in maintaining and improving the infrastructure of airport, parks, streets, stormwater, wastewater, water and city facilities, to the highest possible standards for our community. We continually look ahead to plan for and provide services that will allow the City of Florence to meet its future needs.

Highlights

- debt issue of \$1.3 million to fund design and construction of phase one of the public works facilities
- Revenue to support Public Works Administrative services come from transfers from the various Public Works enterprise funds (airport, water, wastewater, stormwater and streets) for services provided
- Reorganization of the Parks Supervisor to Public Works Administration to provide general oversight of the Public Works field operations
- The major cost centers within materials and services are utilities for the operations center; telephone and internet expenses; general office supplies for all divisions; vehicle maintenance for three vehicles; and maintenance agreements for copier services, postage machine services, GIS software support and AutoCAD software support

Changes from previous year

- Addition of one full-time equivalent position (transfer from Parks to provide field supervision for all public works operations)
- Utility clerk within finance department accounted for in Public Works Administration accounted for in finance effective fiscal year 2015-16
- Design and construction services for a phased approach to a new Public Works Operations facility. This includes designing the entire site followed by phased construction. The first phase will include site clearing and grading; construction of equipment and vehicle storage facilities; concrete pad and utilities for the administration building; parking; and the use of temporary modular building for office and crew space. Subsequent phases can be addressed in future years as service needs expand
- Receipt of \$12,000 from FURA for administrative services provided for FURA projects

City FURA Debt Service Fund

Summary

This is a new fund that will account for the issuance and repayment of a \$3.7 million Full Faith and Credit Obligation (FFCO) issue by the City, that is to be loaned to the Florence Urban Renewal Agency to refinance/repay existing debt of \$1.88 million (\$1.665 million bank note and \$215,000 to the Siuslaw Library District) and provide approximately \$2.15 million of additional funding for the Agency's programs and projects within the urban renewal district. The source of repayment will be payments received from FURA.

Highlights

- Debt capacity of FURA, utilizing benefit of City's full faith and credit provides the community with better loan terms, reducing interest expense and increasing fund available for investment

Changes from previous year

- The debt issue will be by the City, with an Intergovernmental Agreement with FURA

City of Florence
A City in Motion

This page intentionally blank

Florence Urban Renewal Agency

Summary

The budget for the Florence Urban Renewal Agency is presented for reference purposes only. The Budget Committee and the Board of Directors for the Florence Urban Renewal Agency will receive, deliberate and determine the Agency's budget.

The amount of the FURA budget will be limited to the funds FURA can generate through the issuance of debt, which would be considerably less should the City either choose not to allow the Agency to use its full faith and credit or if the City limited the amount of the debt issue it were willing to make to FURA.

FURA General Fund

Summary

This fund accounts for the activities associated with the City's urban renewal agency's implementation of its urban renewal plan. The primary resources are debt proceeds (repaid with property taxes resulting from the excess value of property within the urban renewal district over the frozen base), grants and developer contributions.

Highlights

- The 2011 debt issue is planned to be refinanced at a lower interest rate
- Net new debt of approximately \$2.15 million is planned and available for projects and programs
- The budget includes considerable project and program activity is budgeted in fiscal year 2015-16, continuing for two-three or more years

Changes from previous year

- Property taxes are received directly into the Debt Service Fund, rather than transferred from the General Fund

Staffing

Staffing for FURA activity is provided by the City. Payments to the City's General Fund and the Public Works Administration Fund are budgeted to reimburse the City for staff related costs.

Capital Outlay

Description	Amount
Artwork	125,000
Highways 101 and 126 entryways	150,000
Development projects	750,000
	<u>1,025,000</u>

Additionally, \$100,000 is programmed for development consulting and \$25,000 for a parking/signage plan.

Contingency

The FURA board may allocate approximately \$352,000 of the contingency amount of \$1,074,250, without reconvening the budget committee, if development or other opportunities arise during the fiscal year. Otherwise the unspent funds are programmed for use in subsequent fiscal years to complete highway 101 and 126 entry way projects, additional artwork, and other projects.

FURA Debt Service Fund

Summary

This fund accounts for the repayment of debt issued to finance the urban renewal agency's projects and programs. The primary revenue source is property taxes.

Highlights

- The 2011 debt issue will be refinanced at a lower interest rate (\$1.665 million refinanced)
- An existing debt obligation to the Siuslaw Library will be repaid in full (\$215,000)
- Additional net debt of approximately \$2.15 million is planned (total issue of \$3.7 million)

Changes from the previous year

- Property taxes are received directly into the Debt Service Fund
- Property taxes prior to fiscal year 2015-16 are presented for historical comparison only, the revenue was previously recognized in the FURA Capital Projects Fund.

Summary

The debt schedule above reflects total outstanding debt of the City and its urban renewal agency (Florence Urban Renewal Agency) as of June 30, 2015 and projected through June 30, 2020, including proposed debt issues included in the budget for fiscal year 2015-16. There may be additional debt issues needed in fiscal years 2016-17 through fiscal year 2019-20 that are not reflected in the above schedule pending decisions by the City Council related to street funding, funding capacity for FURA, and timing of implementation of the public works facility plan.

Summary

The above forecasts assume an increase in the City Street Fee of \$0.50 per equivalent dwelling unit (EDU) per year effective fiscal year 2015-16 and the approval of a vehicle registration fee by Lane County in May 2015, with revenue forecasted mid-year fiscal year 2015-16.

The projected funding gap to complete deferred maintenance capital projects that total \$7.0 million is approximately \$5.7 million (which provides a fund balance of approximately \$500,000).

With the defeat of the County measure in May, the annual funding gap will increase by approximately \$144,000, which over four and one-half years increases the funding gap from \$5.7 million to \$6.35 million (an increase of approximately \$650,000).

Glossary

Actual

Actual, as used in the fund summaries, revenue summaries, and department and division summaries within the budget document, represents the actual costs results of operations. This category is presented on a budgetary basis, and thus excludes depreciation and amortization and includes principal payments on debt.

Ad Valorem Tax

A tax based on the assessed value of a property.

Adopted Budget

Adopted, as used in the fund summaries and department and division summaries within the budget document, represents the final budget *adopted* by City Council. The adopted budget becomes effective July 1. Subsequent to adoption; the City Council may make changes throughout the year.

Approved Budget

Approved, as used in the fund summaries, revenue summaries, represents the proposed budget with changes made by the budget committee, if any.

Appropriations

Legal authorization granted by the City Council to spend public funds. Appropriations within each program may not be exceeded.

Assessed Valuation

The value set on taxable property as a basis for levying property taxes. A tax initiative passed in 1997 that reduced AV below real market value and set a three percent maximum annual growth rate in the TAV (taxable assessed value), exclusive of certain improvements.

Assets

Resources having a monetary value and that are owned or held by an entity.

Audit

A report prepared by an external auditor. As a rule the audit shall contain a statement of the scope of the audit, explanatory comments concerning exceptions of the auditor as to the applicant on generally accepted auditing standards, explanatory comments concerning verification procedures, financial statements and schedules, and sometime statistical tables, supplemental comments and recommendations.

Base Budget

Cost of continuing the existing levels of service in the current budget year. Base budget is also referred to as a status quo budget.

Beginning Fund Balance

The beginning balance is the residual non-restricted funds brought forward from the previous financial year (ending balance).

Bond or Bond Issue

Bonds are debt instruments that require repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate or according to a formula for determining the interest rate.

Bond Funds

Established to account for bond proceeds to be used only for approved bond projects.

Budget

A budget is a plan of financial operation embodying an estimate of proposed expenditures and the means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. In practice, the term budget is used in two ways. Sometimes it designates the financial plan presented for adoption and other times it designates the plan finally approved. It is usually necessary to specify whether the budget under consideration is preliminary and tentative, or whether the appropriating body has approved it.

Budget Calendar

A schedule of key dates followed by a government in the preparation and adoption of the budget.

Budget Committee

A group comprised of the elected officials plus an equal number of concerned citizens for the purpose of reviewing the proposed budget and recommending changes leading to an approved budget.

Budget Document

A written report that shows a government's comprehensive financial plan for a specified period, usually one year, that includes both the capital and the operating budgets.

Budget Message

Written explanation of the budget and the City's financial priorities for the next fiscal year; prepared by the city manager.

Budgetary Basis

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), with the exception that neither depreciation nor amortization are budgeted for proprietary funds, and bond principal in the enterprise funds is subject to appropriation.

Capital Budget

The City's budget for projects, major repairs, improvements and additions to the City's fixed assets (streets, sidewalks, roads, sewers, storm water, parks, and buildings).

Capital Improvement

A term defined in the ORS 310.410 (10) to include land, structures, facilities, machinery, equipment, or furnishings having a useful life of longer than one year.

Capital Improvement Project

Any project having assets of significant value and having a useful life of five years or more. Capital projects include the purchase of land, design, engineering and construction of buildings, and infrastructure items such as parks, streets, bridges, drainage, street lighting, water and sewer systems and master planning.

Capital Outlay

Includes the purchase of land, the purchase and/or construction of buildings, structures and facilities of all types, in addition to machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating as an existing fixed asset. For an item to qualify as a capital outlay expenditure it must meet all of the following requirements: (1) have an estimated useful life of more than one year; (2) typically have a unit cost of \$5,000 or more; and (3) be a betterment or improvement. Replacement of a capital item is classified as capital outlay under the same code as the original purchase. Replacement or repair parts are classified under materials and services.

Capital Projects

Major repairs, improvements or additions to the City's fixed assets (streets, sidewalks, roads, sewers, storm water, parks, and buildings).

Cash Management

Management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest income. Cash management refers to the activities of forecasting inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the highest return available for temporary cash balances.

Charges for Service

Includes a wide variety of fees charged for services provided to the public and other agencies.

Comprehensive Annual Financial Report

The annual audited results of the City's financial position and activity.

Comprehensive Plan

An official statement of the goals, objectives and physical plan for the development of the city. Contains a narrative of goals, objectives and policies that describe the desired form, nature and rate of city development.

Consumer Price Index

A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e., economic inflation).

Contingency

A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted. Contingency may be appropriated for a specific purpose by city council upon the approval of a resolution. The City separates contingencies into those that are designated for specific purposes and undesignated.

Cost Allocation

Various administrative services including city management, finance, human resources, public works staffing and their related costs are allocated to the various funds that receive the benefit of these services via a cost allocation methodology.

Cost Center

An organizational budget/operating unit within each city division or department.

Debt Service

Interest and principal on outstanding bonds due and payable during the fiscal year.

Debt Service Fund

A fund established to account for the accumulation of resources and for the payment of general long-term debt principle and interest that are not services by the Enterprise funds. It does not include contractual obligations accounted for in the individual funds.

Department

Led by a general manager, this combination of divisions of the City share specific and unique sets of goals and objectives (i.e., Police, Fire, Financial Services, Water Resources, etc.).

Division

A functional unit within a department consisting of one or more cost centers engaged in activities supporting the unit's mission and objectives.

Depreciation

Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of physical elements, inadequacy, or obsolescence.

Designated Contingency

Amounts set aside for anticipated non-recurring cash flow needs. This includes items such as moving and remodeling, major building repairs, emergency management, and capital project or equipment purchases.

Elderly and Disabled

Provides funding for transportation alternatives for seniors and persons with disabilities. This includes taxi and bus services for employment, medical, shopping, and other necessary trips.

Employee Benefits

Contributions made by a government to meet commitments or obligations for employee-related expenses. Included is this is the government's share of costs for social security and the various pension, medical and life insurance plans.

Encumbrance

Amount of money committed and set aside, but not yet expended, for the purchases of specific goods or services.

Ending Fund Balance

The residual, non-restricted funds that are spendable or available for appropriation at the end of the fiscal year.

Enterprise Funds

Established to account for operations, including debt service that are financed and operated similarly to private businesses – where the intent is the service is self-sufficient, with all costs supported predominantly by user charges.

Estimated

A projection of the revenue or expenditure, as appropriate, to be recognized during the current fiscal period.

Expenditures

Represents decreases in net financial resources. They include current operating expenses, which require the current or future use of net current assets, debt services, and capital outlays.

Fees

Charges for specific services levied by local government in connection with providing a service, permitting an activity, or imposing a fine or penalty.

Fiscal Management

A government's directive with respect to revenues, spending, reserves and debt management as these relate to governmental services, programs and capital investment. Financial policy provides an agreed upon set of principles for the planning and programming of governmental budgets and its funding.

Fiscal Year

A 12-month period designated as the operating year for accounting and budgeting purposes in an organization. The City of Florence's fiscal year is July 1 through June 30.

Five-Year Financial Plan

An estimation of revenues and expenses of the City's operations for the next five-year period.

Fixed Assets

Includes equipment, vehicles, furniture and fixtures, computer hardware and software with a cost basis in excess of \$5,000.

Franchise Fee

Charged to all utilities operating within the City and is a reimbursement to the general fund for the utility's use of City's right of ways.

Full-Time Equivalent

A calculation used to convert part-time hours to equivalent full-time positions. Full-time employee salaries are based on 2,080 hours per year. The fulltime equivalent of a part-time employee is calculated by dividing the number of hours budgeted by 2,080.

Fund

A fiscal and accounting entity with a self-balancing set of accounts. Records cash and other financial resources together with all related liabilities and residual equities, or balances and changes therein. These are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Fund Balance

The balance of net financial resources that is spendable or available for appropriation.

General Fund

This is the primary operating fund of the City. It exists to account for the resources devoted to finance the services traditionally associated with local government.

General Long-term Debt

Represents debt payable that is not classified as a liability of a given fund or secured by a specific revenue source other than the general revenues or property taxes of the issuer. General Obligation (GO) bonds are secured by the full faith and credit of the issuer. GO bonds issued by local units of government are secured by a pledge of the issuer's property taxing power (secondary portion). Usually this is issued to pay for general capital improvements such as parks and City facilities.

Goal

The result or achievement toward which effort is directed; aim; end.

Grant

A contribution that is made by one government unit to another. The contribution is usually made to aid in the support of a specified function (i.e., library, transit, or capital projects).

Infrastructure

Public domain fixed assets such as roads, bridges, streets, sidewalks, and similar assets that are immovable.

Intergovernmental Revenues

Levied by one government, but shared on a predetermined basis with another government or class of governments.

Levy

Gross amount of property taxes imposed on taxable property. The net amount received by a government will be less than the gross levy as a result of delinquent or uncollectible payments or early payment discounts. Budgets are developed on the basis of the projected amount of property taxes receivable.

Line Item Budget

The traditional form of budget, where proposed appropriations are based on individual objects of expense within a department or program. Local Budget Law Oregon Revised Statutes (ORS) dictates local budgeting practices. ORS Chapter 294 contains Local Budget Law provisions.

Local Improvement District

Consists of property owners desiring improvements to their property. Bonds are issued to finance these improvements, which are repaid by assessments on their property. Local Improvement District debt is paid for by a compulsory levy (special assessment) made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

Local Option Levy

Under Measure 50, local governments and special districts were given the ability to ask voters for temporary authority to increase taxes through approval of a local option levy. The maximum length of time for a local option levy is 5 years, and up to 10 years, if the levy is for capital purposes. A local option levy must be approved by a majority of voters at a general election or an election with a 50 percent voter turnout.

Materials and Services

Expendable items purchased for delivery and city services. This classification includes supplies, repair and replacement parts, small tools, and maintenance and repair materials that are not of a capital nature.

Measure 5

In November 1990, State of Oregon voters passed a constitutional limit on property taxes. The law sets a maximum \$10 tax rate on individual properties for the aggregate of all non-education taxing jurisdictions. The maximum tax rate for education jurisdictions is limited to \$5.

Measure 50

A 1997 voter approved initiative which rolled back assessed values to 90 percent of their levels in fiscal year 1995-96 and limits future annual increases to three percent, except for major improvements. Tax rates are now fixed and not subject to change. Voters may approve local initiatives above the fixed rates provided a majority approves at either (1) a general election in an even numbered year; or (2) at any other election in which at least 50 percent of registered voters cast a ballot.

Mission

Defines the primary purpose of the City and is intended to guide all organizational decisions, policies and activities (internal and external) on a daily basis.

Non-Operating Budget

Part of the budget composed of the following items: Reserves, contingencies, capital projects, and debt service payments.

Objective

A target to be accomplished in specific, well defined and measurable terms, and that is achievable within a specific time frame.

Operating Budget

The plan for current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing, acquisition, spending, and service delivery activities of a government are controlled.

Operating Revenue

Funding received by the government as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services, capital outlay, and debt service.

Ordinance

A formal legislative decree enacted by the governing body of a municipality. If it is not in conflict with any higher form of law, such as a state statute or a constitutional provision, it has the full force and effect of the law within the boundaries of the municipality to which it applies.

Outstanding Debt

The balance due at any given time which resulted from the borrowing of money or from the purchase of goods and services.

Performance Measure

Data collected to determine how effective or efficient a program is in achieving its objectives.

Permanent Tax Rate

Under Measure 50, each school district, local government, and special district was assigned a permanent tax rate limit in fiscal year 1998. This permanent rate applies to property taxes for operations.

Personnel Services

The salaries and wages paid to employees, in addition to the City's contribution for fringe benefits such as retirement, social security, and health and workers' compensation insurance.

Property Tax

Based according to assessed value of property and is used as the source of monies to pay general obligation debt and to support the services provided by the City.

Project Manager

An individual that is responsible for budgeting and managing projects to their completion.

Proposed Budget

A financial document that combines operating, non-operating and resource estimates prepared by the Budget Officer, which is submitted to the public, budget committee and City Council for review and approval.

Resolution

A special or temporary order of a legislative body requiring city council action.

Resources

Includes revenue, inter-fund transfers, borrowing proceeds and beginning fund balance.

Retained Earnings

An equity account that reflects the accumulated earning of an enterprise or internal service fund.

Revenue

Funds received by the City from either tax or non-tax sources.

Revenue Bonds

Bonds payable from a specific source of revenue, which does not pledge the taxing authority of the issuer. Pledged revenues may be derived from operation of the financed project, grants, excise, or other specified non-property tax.

Special Assessment

A compulsory levy made against certain properties to defrayal part of the cost of a capital improvement or service deemed to be beneficial primarily to those properties. (Also see Local Improvement District)

Special Assessment Bond

A bond issue payable from the payments on special assessments imposed against properties that have been specially benefited by the construction of public improvements such as sidewalks, roads, or sewer systems.

Special Revenue Funds

A fund established to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Supplemental Budget

Appropriations established to meet needs not anticipated at the time the budget was originally adopted. A supplemental budget cannot increase the tax levy.

System Development Charges

Charges paid by developers and builders to fund expansion of infrastructure systems necessary due to increased usage. Such charges are collected for water, sewer, storm drains, streets, and parks and are paid by developers and builders as part of the permit process.

Taxes

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges, such as water service.

Tax Levy

The total amount of property taxes needed to pay for General Fund operations and for principal and interest on bonds.

Tax Rate

The amount of tax levied for each \$1,000 of assessed valuation.

Tax Revenue

Includes property taxes, hotel and motel room tax.

Tax Roll

The official list showing the amount of taxes levied against each property.

Transfers

Appropriation category used in the City's budget, which includes amounts distributed from one fund to pay for services provided by another fund. The general fund may also transfer funds to any other fund if desired by the City Council.

Trust Funds

A fund established to administer resources received and held by the City as the trustee or agent for others. Uses of these funds facilitate the discharge of responsibility placed upon the City by virtue of law or other similar authority.

Unappropriated Ending Fund Balance

An account which records a portion of the fund balance. It must be segregated for future use and is not available for current appropriation or expenditure.

Unreserved Fund Balance

The portion of a fund's balance that is not restricted for a specific purpose. It is available for general appropriation.

User Fees

The fee charged for services to the party or parties who directly benefits. They are also referred to as Charges for Service.
