Existing Bus Stops

Rhody Express Ridership Boarding

The attached breakdown includes paying customers boarding at scheduled stops; it does not include any companion(s). While we do count the companion(s) in our daily tally, we do not track the boarding or de-boarding location.

The far right column reflects the percentage (%) of riders boarding at the specific bus stop. Where there is no % listed it is a location with multiple stops per hour, therefore the total % for this location is reflected in the first stop per hour. The -1 reflects less than 1% of the ridership boards at this location.
