

City of Florence
A City in Motion

Cathy Brown is a Waste Reduction Specialist with the Oregon Department of Environmental Quality's Materials Management Program. Cathy has been in this position for over a year, but prior to this role worked in the DEQ's Tanks and Environmental Cleanup Programs for 14 years. The change in career path was due to her passion for waste reduction, recycling, and the Materials Management Program 2050 vision of a sustainable future for all Oregonians. She is excited to work towards affecting climate change through modifying habits and management of materials.

Cathy will be providing her presentation with a focus on PREVENTING THE WASTING OF FOOD to the Environmental Management Advisory Committee (EMAC) on [Tuesday, September, 2019 @ 6:00 p.m.](#) EMAC would like to extend the invitation to our interested community members who want to attend this presentation.
