

THE EARTH MACHINE®

(Image Source: www.gardentools.best/earth-machine-composter/)

THANK YOU FOR PARTICIPATING IN THE COMPOSTING PILOT PROGRAM!

The Earth Machine is an outdoor compost bin made of heavy plastic. Some people successfully compost both yard waste and kitchen waste in an Earth Machine®. Other people find adding kitchen waste produces smells and attracts pests. If that is an issue, people only compost yard waste in their Earth Machine. If food scraps are added to the Earth Machine, it is best to not add meat, dairy, or fruit, which attracts bears. No composter can be guaranteed to be free of marauders.

There are many websites and videos regarding composting. One about the Earth Machine that might be helpful is:
