Fiscal Year 2014 – 2015 Budget Message City of Florence, Oregon April 28, 2014

To the Honorable Mayor
Members of the Florence City Council
Citizen members of the Budget Committee
Citizens of the City of Florence

“You can design and create, and build the most wonderful place in the world. But it takes people to make the dream a reality.”

- Walt Disney

It is my pleasure to present for your consideration, a balanced budget of \$25,429,978 for the fiscal year 2014-15. The Finance Director prepared the document under the guidance of City Manager with the collaboration of the supervisory staff that includes the Public Works Director, Interim Planning Director/City Recorder, the Interim Police Chief and the Florence Events Center Manager. We have spent a great deal of time preparing this budget utilizing the most accurate information available to predict revenues and expenditures for the upcoming year.

This budget message highlights key issues and directs you to further explanations throughout the document as it relates to each specific fund, program or department. The Long-Range Financial Plan has been updated twice and the financial framework was followed in preparing this document. Ending fund balance targets are in place to assure that the City is able to handle emergency financial situations and to manage cash flow needs. The City management staff is very cognizant of the budget constraints and are conservative with their spending and continue to research grant opportunities. This 2014-15 budget aspires to fund priority activities and programs with current revenues while at the same time looking to the future to ensure that we end the year in a manner that is sustainable for maintaining levels of service in future years.

The annual budget is the single most important financial document of the City. It sets standards and establishes an action, operational and financial plan for the delivery of City services. The budget document is organized into 10 funds and accounts for 18 programs. Each fund is a self-balancing set of accounts. The budget has been prepared in accordance with Local Budget Law and Government Accounting Standards. It is important for us to continuously remind our citizens that our revenue sources are tied to specific expenditures and can only be used for their prescribed purpose. Each fund is designed to separate transactions in compliance with a specific program and to aid in the management of public dollars received. Dollars cannot be moved between funds without the proper budgetary appropriations.

Some major issues were identified in the long-range planning process that will require the budget committee to take action on and make decisions based on our proposed solutions. Anything that deviates from what is in our long-range financial plan is reflected in this proposed budget and is justified. The major issues identified include:

- A City Council Goal for 2014 is to find sustainable funding for the Streets Program by placing a gas tax on the November 2014 ballot. The outcome of that vote will have an impact on the Street Program budget.
- Water and sewer rate increases of 1% and 2% are proposed to keep up with the increase in the cost of services and to provide adequate revenue streams to support debt service expenses. Water rate increase of only 1% was achieved due to the new revenue stream coming from the City's surplus water agreement that will generate revenues (\$47,000 - \$57,000) equal to that of a 2% rate increase. Stormwater fee charges will remain the same for the third year in a row. The budget includes no new fees and charges to fund the infrastructure investments.
- Collecting the full permanent tax rate of \$2.861 per thousand will bring in an estimated \$2.2 million in property tax revenue. Even though the Lane County Assessor's office projects a 3% increase in property tax values, trends with properties in the City for the past four years have been 1.7% increase in assessed value; therefore City Management's proposed 2014-15 property tax revenue budget calculations includes the assumption that assessed values will increase 1.5%.
- The proposed budget includes a General Obligation (G.O.) Bond property tax levy amount of \$250,500 to pay for debt service on a voter approved G.O. Bond for the Justice Center and Water Treatment Plant improvements. The Justice Center G.O. Bond will be paid off during the 2014-15 fiscal year.
- Interfund loan schedule on page 25 summarizes the repayment of various outstanding interfund loans – the City does not intend to have any new interfund loans and is pleased to be repaying the two open accounts. The Interfund Loan #2 will be paid in full on June 30, 2015 and the Interfund Loan #3 will be repaid in full on June 30, 2016.
- FEC policy decisions are incorporated into the budget which consists of a new 40/60 percent allocation for TRT revenues, a \$145,000 general fund operational subsidy to the FEC, a new expenditure line item for a Business Opportunity option to entice conference bookings which are all explained in more detail in the FEC Fund narrative section.
- Location of a new Public Works Operation Facility will bring financial support to the Airport Fund, as the City Manager and the Public Works Director are in the process of negotiating a land lease agreement in the Pacific View Business Park. If that is not brought to fruition in 2014, the General Fund will once again need to subsidize operations of the Airport which is budgeted at \$22,400.

The total appropriations in the proposed 2014-15 budget for all funds is \$20.4 million. This is a 13% or \$2.4 million increase from the prior fiscal year budget. The primary reason for this increase is attributed to \$1.4 million more in capital projects budget. Capital outlay is \$4.5 million compared to the previous FY14 budget of \$3.1 million. The reason last year's capital budget was so low is because the City was focused on completing outstanding projects. This year we have proposed funding for projects that we believe we can reasonably accomplish. Capital projects as well as grants proposed in this budget are aligned with the current adopted City Council goals. Further explanation and analysis is included in the Capital Projects Summary Section of the budget document.

Another contributing factor to the 44% increase in the City's overall capital budget is the Police Department performed a vehicle fleet inventory that revealed that police vehicles have not been rotated properly and there is a dire need to replace 2 more vehicles. The budget includes \$120,000 to purchase two police vehicles. Other public safety equipment needs have been assessed and found to be lacking. Furthermore, a preliminary assessment of the Justice Center building will be completed in 2014. There is much deferred maintenance that needs to be done. Now that the building is being paid off this year we need to protect our investment. Once a final determination on costs are made, staff will bring financing options to Council.

The General Fund is the City's only unrestricted fund. The General Fund budget has been prepared reflecting the continued reduction in costs that were set in motion in the FY12 budget process. Personnel services expenditures comprise 58% (\$3.4 million) of the General Fund and include payroll and related benefits. The FY15 General Fund Budget of \$4.9 million (before transfers out and contingency) is a \$200,000 or 4% increase over the FY14 budget.

Most importantly, this year's General Fund unappropriated ending fund balance (before reserves) is \$1.3 million; and including reserves of \$300,000 the final ending fund balance is \$1.6 million. The City strives to maintain a healthy General Fund ending fund balance of \$1.5 million at a minimum, in order to be financially stable through December for the following fiscal year before property tax revenues are received. We are constantly monitoring the fiscal health of the City by watching the progress we make year over year in attaining and maintaining the various fund balance targets. I encourage you to review the reports in the Fund Balance Analysis Section to familiarize yourself with the City's fund balance targets for all funds.

New laws, court decisions and economics since the recession in 2008 have combined to forge a new reality that is vastly different from the world of ample pension plans and rich healthcare benefits that were once a trademark of public sector employment. The outcome needs to minimize impacts to the morale as benefit reductions can decrease job appeal – and it is what triggers the formation of unions or makes employees look elsewhere.

Therefore, in the coming year, as City Manager I will focus on assessing our wages and health care plans. Our employees are one of our greatest assets; however our current wage system for employees is not sustainable. FY15 Budget includes funds for an independent organization to conduct a strategic assessment of our compensation plan so that management has better control on employee benefit packages. Some can be done administratively, but others are tied to the police collective bargaining agreement and will be addressed during future negotiations.

Labor expenses driven by increasing costs associated with health insurance and retirement benefits continue to go up at a faster rate than our primary revenue sources, which means that cuts must be made in other areas. Contributions to equipment replacement and facility reserves have been reduced or eliminated in recent years and the City's materials and supplies budgets have also gone down. Personnel costs have increased at a very modest 5% or \$247,000 in FY15. Factors contributing to the increase in personnel cost consist of the following increases: 1-3% merit increases for non-represented employees; a 2.75% plus step increases where available for our represented Police Association employees; 2.7% increase for PERS; 33% rate increase for workers compensation insurance; and 7% increase for the H.S.A. Medical Insurance. The City was able to absorb some of the personnel cost increases by reallocating resources to preserve priority levels of service and by forgoing cost-of-living adjustments (COLA) for non-represented employees for the ninth year in a row

I continue to commend you on your appreciation for the hard work of the City's employees, the partnership with community organizations, and the devoted work of the volunteers that all allow the City to provide excellent programs at significantly reduced costs. I also want to thank the Council and Budget Committee for your guidance and input as we work on this budget together with a goal of maintaining a healthy city and protecting the quality of life in Florence.

In conclusion, being fiscally prudent, utilizing a pay as you go philosophy and taking advantage of progressive opportunities when they present themselves has been the hallmark of our City's budgetary and financial philosophy. Each year brings its own set of challenges and as in year's past we have looked at each challenge as an opportunity for us to find solutions that create a positive outcome. I remain optimistic that our City will continue to be an excellent place to live and that City Council and staff are committed to delivering the best services to our citizens. I believe that the proposed budget as presented represents an effective use of the City's resources, maintains financial stability and provides for a foundation to build a bright future for the City of Florence.

On behalf of the entire management team, thank you for your thoughtful consideration of this proposed budget and for your volunteer service to the community.

Respectfully submitted,

A handwritten signature in blue ink that reads "Jacquie M. Betz". The signature is written in a cursive, flowing style.

Budget Overview Section

Fiscal Year 2014 – 2015

Brief Description:

The Introductory Section contains various reports that summarize the budget for the fiscal year ending June 30, 2015. We commonly refer to this as the FY15 or the 2014-15 Budget. The Introductory Section is organized as follows:

Budget Overview Summary:

The final result of the budgetary process is for the Budget Committee to review and approve a budget that is then taken to City Council for adoption. On June 2, 2014, the City Council adopted Resolution No. 6, Series 2014 adopting the 2014-15 budget which has been provided on the following page. The detail section of the budget document supports the summarized appropriations as adopted by City Council. The adopted budget of \$25.4 million with a total appropriations of \$20.4 million, imposed a tax of \$2.861 per \$1,000 of assessed value and assessed \$250,500 for debt service on general obligation bonds, and categorized the tax for both a permanent tax rate and a General Obligation Bond Debt Service amount.

RESOLUTION No. 6, SERIES 2014

**A RESOLUTION ADOPTING THE 2014 - 2015 BUDGET, MAKING APPROPRIATIONS,
AND IMPOSING AND CATEGORIZING AD VALOREM TAXES**

Property Tax Revenue Section

Fiscal Year 2014 – 2015

The City of Florence has a permanent property tax rate and a general obligation bond property tax amount. The following reports demonstrate how the City derived the budgeted amount of property tax revenue for each tax levied. The City has estimated that there will be a 1.5% increase in the assessed value over actual 2013-14 assessed values. The budget includes levying at the full permanent levy rate or \$2.861 per \$1,000 of assessed value.

During last year's Budget process the Budget Committee and City Council made a policy decision to levy its full permanent tax rate primarily because of the continued decline of revenues and the increasing costs of providing city services. Previously in FY12 and FY13 the City levied a reduced rate of \$2.47 per \$1,000 of assessed value as part of an agreement entered into with Siuslaw Valley Fire & Rescue when the City was annexed into the District in 2011.

In the 2013-14 budget the City held the additional property tax revenue derived from levying the full tax rate of \$2.861 in reserves (\$280,000) until the process for finding sustainable funding for the Florence Events Center was complete. Last year's reserve has been released and budgeted for according to the new Council financial policies in the General Fund and the FEC Fund. See each Fund's respective narrative for further discussion on this matter. The FY15 budget has a Reserved UEFB in the amount of \$300,000 to be allocated per Council direction as the FEC and other City service funding needs are evaluated over time.

In addition the 2014-15 budget includes a General Obligation (G.O.) Bond property tax amount of \$250,500 to support debt service payments for the voter approved G.O. Bonds for the Justice Center building and the Water Treatment Plant improvements. For further discussion on the matter reference the G.O. Bond Debt Service Fund narrative.

City of Florence Property Tax Values
Lane County

Data obtained from Lane County's website. The reports are titled XXXX-XX Value Comparison
<http://www.lanecounty.org/Departments/AssessmentandTaxation/Pages/TaxReportsA.aspx>

NOTE: For the last four fiscal years (FY11-14) the City has experienced 1.7% in assessed value (after FURA) growth.
 Therefore, the 2014-15 Budget contains Property Tax Revenue budget calculations that assume that assessed values will increase 1.5%

Fund Balance Section

Fiscal Year 2014 – 2015

TABLE 1 – In 2011 the City Council adopted a long-range financial plan (“Plan”).

Subsequently the Plan has been updated twice, with the most recent edition spanning the fiscal years ending June 30, 2014 – 2018 (issued January 2014). Management prepared the 2014-15 budget within the parameters set within the Plan. Table 1 offers a comparison by fund of the 2014-15 budget to the forecasted ending fund balances contained in the Plan. With careful planning and conservative spending, each fund/program’s projected June 30, 2015 ending fund balance is right in line with what was planned for.

TABLE 2 - During the long-range financial plan process the Council endorsed the recommended targets for ending fund balance in order to be financially stable for unexpected situations and to manage cash flow needs. This report compares the ending fund balance at June 30, 2015 as budgeted to the fund balance targets set by Council and included in the Plan. During the budget process a multitude of decisions were made such as the need to borrow or not borrow money and to raise utility rates or not raise utility rates, based on the fund balance targets.

It is important to note this “living” document spans five years and in most cases, it takes that long to attain the target. This report provides a context with which one can evaluate the City’s most vital financial health indicators – a fund’s ending balance.

Note: This Fund Balance report compares the ending budgeted fund balance at June 30, 2015 to the fund balance targets set by the City Council.

Capital Outlay Section

Fiscal Year 2014 – 2015

The Capital Outlay Section begins with a schedule of budgeted Capital Projects and how each project will be funded. Following that report is a schedule of the capital outlay expenditures, by line item, that have been incorporated into the adopted budget document. For each project we have identified the funding source on how the City intends to pay for the project. The capital outlay expenditures for the FY15 budget year is \$4.5 million compared to the previous FY14 budget of \$3.1 million.

Two significant projects are included in the FY15 budget. The first is the Rhododendron Drive Multi-Use Path that is expected to begin by the end of the calendar year. This project is primarily grant funded (\$900,000) with the remaining \$100,000 being funded by System Development Charges (SDC) because a portion of the project qualifies as capacity increasing. The second project is the first phase of the Public Works Operational Facility in the amount of \$300,000, which will pay for the engineering and design phase.

Historically the total in capital outlay projects has been between \$4 million and \$6 million dollars. The \$1.4 million increase in capital projects this year is expected because the City focused on completing several projects that were carried forward in FY14. It is the City's intent to only budget for capital projects that can realistically be completed in a 12 month period.

Debt Service Section

Fiscal Year 2014 – 2015

Total debt service requirement for the FY15 budget year is \$2.7 million. The Debt Service Section begins with a summary of debt service requirements (principal, interest and fees) for the FY15 budget and they are organized by issuance.

Following that report is a schedule of the debt service expenditures that have been incorporated into the detail expenditure line items of the budget document.

The FY15 budget estimates that the City will finance approximately \$1.9 million in capital items with long-term debt financing. The estimated debt service expenditures related to the expected debt issuances have been included in the 2014-15 budget.

Transfers & Interfund Loans Section

Fiscal Year 2014 – 2015

The City uses transfers for various reasons. Transfers are a budget type of resource and requirement that represents an amount to be given or received from one fund to another. Each year, funds that have received debt proceeds transfer resources to the Debt Service Fund to pay for its share in debt service expenditures. The utility enterprise pays a 5% franchise fee on charges for services to the General Fund. In addition, the General Fund subsidizes the FEC and Airport Funds by way of transfers.

Table 1 - Provides a summary of all transfers as budgeted in the 2014-15 budget document.

Table 2 – Another transfer in and out for the City are repayments on outstanding interfund loans. This schedule summarizes the repayment of two outstanding interfund loans that resulted from the Spruce Street Local Improvement District Project. The City does not intend to nor have we included any new interfund loans.

Table 3 - Recurring transfers for the City are the General Administrative and Public Works (PW) Administrative transfers to reimburse the General Fund and PW Administrative Fund for services provided that benefit other funds. Table 3 provides a closer look at the City's two significant expense allocations for the General Administrative Function and the PW Administrative Function allocations.

Fiscal Year 2014 – 2015

NOTICE OF BUDGET COMMITTEE MEETING

A public meeting of the Budget Committee of the City of Florence, Lane County, State of Oregon, on the budget for the fiscal year July 1, 2014 to June 30, 2015, will be held at the City of Florence City Hall, 250 Highway 101, Florence, Oregon 97439. The meeting will take place on **April 28, 2014 at 6:00 pm.** The purpose of the meeting is to receive the budget message. This is a public meeting where deliberation of the Budget Committee will take place.

An additional, separate meeting of the Budget Committee will be held to take public comment. Any person may appear at the meeting to discuss the proposed programs with the Budget Committee. The meeting for public comment will be on May 12, 2014 at 6:00 pm held at the City of Florence City Hall, 250 Highway 101, Florence, Oregon 97439.

A copy of the budget document may be inspected or obtained on or after Monday, April 21, 2014 at the City of Florence City Hall, 250 Highway 101, Florence, Oregon 97439, between the hours of 8:00 am through 12:00 pm, and 1:00 pm through 5:00 pm. The proposed budget document will also be posted to the City's website.

A copy of this notice will also be published on the City of Florence website at <http://www.ci.florence.or.us/finance/city-budget-committee-meeting-1>

The meeting location is wheelchair accessible. Anyone requiring special accommodations please call (541) 997-3437 at least 48 hours prior to the hearing.

To be published April 16, 2014

**NOTICE OF BUDGET COMMITTEE MEETING
PUBLIC HEARING
STATE REVENUE SHARING FUNDS**

A public hearing of the Budget Committee of the City of Florence, Lane County, State of Oregon, to discuss the budget for the fiscal year of July 1, 2014 to June 30, 2015, will be held at the City of Florence City Hall, 250 Highway 101 N., Florence, Oregon 97439. The meeting will take place on **May 12, 2014 at 6:00 pm.**

The purpose of the hearing is to give citizens an opportunity to provide written or oral comments or suggestions on possible uses of State Revenue Sharing funds to be received by the City of Florence from July 1, 2014 to June 30, 2015. The State Revenue Sharing funds expected to be received are \$50,000. The purpose of the meeting is to receive comment from the public on the budget.

A copy of the budget document may be inspected or obtained on or after May 5, 2014 at the City of Florence City Hall, 250 Highway 101, Florence, Oregon 97439 between the hours of 8:00 am through 12:00 pm; and 1:00 pm through 5:00 pm. A copy of this notice, and the proposed budget document, will also be published on the City of Florence website at <http://www.ci.florence.or.us/finance/city-budget-committee-meeting-2>

This is a public meeting where deliberation of the Budget Committee will take place. Any person may appear at the meeting and discuss the proposed programs with the Budget Committee.

The meeting location is wheelchair accessible. Anyone requiring special accommodations please call (541) 997-3437 at least 48 hours prior to the hearing.

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING

The City remains committed to providing the essential public services to the residents of Florence. There have been no changes in the services provided which include, but are not limited to, Police, Water, Wastewater, and Stormwater Utility Services, Streets and Transportation, Parks, Land use planning, Building, Community Development, Court, Events Center, and Airport. The Budget Committee approved utility rate adjustments for water (1%) and wastewater (2%) to keep up with the increase in the cost of providing services and to provide adequate revenue streams to support existing debt service expenses. Total capital outlay of \$4.5 million for the upcoming year include capital projects for Street Preservation & Improvements, the construction phase of the Rhody Drive Multiuse Path, Events Center Building improvements, the East Water Reservoir pump station project, reservoir improvements, replacement of old sewer lines, Rhody gravity sewer phase 1 project, the Old Town storm drain project, the Siano Loop stormwater project, and costs for the design & engineering phase of the Public Works operation facility.

DEPARTMENT: PLANNING	STAFF LEVEL FTE:	2.5	2.5	4.0
PROGRAM: COMMUNITY DEVELOPMENT	FUND: GENERAL FUND			

Department Description

The Planning Department is responsible for administering all planning and land-use related functions of the City. This department provides customer service to answer citizen questions concerning land development and zoning codes. The department processes all land use applications at the staff, Planning Commission, and City Council level, and ensures compliance with state land use and waste disposal laws. Planning is responsible for the staff support of the Planning Commission, Environmental Management Advisory Committee and Transit Advisory Committee. A new position has been added to the Planning Department for this budget year with the transferring of the Code Enforcement position and function from the Police Department to the Planning Department. Code Enforcement serves to enhance the quality of life in our community and to protect citizens and their property. The Code Enforcement Officer provides education and enforcement of our City ordinances to businesses, property owners, and residents regarding various topics such as, but not limited to, waste disposal, abandoned vehicles, sign ordinances, noxious vegetation, parking, and animal control.

Budget Comments

Revenues to support the department services come from Planning/Zoning fees, grant funds, and unrestricted General Fund Revenues. We are projecting a similar level of planning application fee revenue for the next year as compared to actual 2013-14 planning application fee revenues. We anticipate receiving \$7,200 from the Federal Grant for Coastal Zone Management (CZM) administered by the Department of Land Conservation and Development (DLCD).

Significant Changes

The Planning Department has seen many significant staffing changes throughout the 2012, 2013, and 2014 fiscal years due to the recession. Since 2012, the job duties for the Planning Director were taken over by the City Recorder and the salary for that position was split between the Planning and City Manager's office. In response to a slow but steady turnaround in the economy, staffing for the 2014-15 budget includes a transition to a full-time Planning Director, as well as a Senior Planner and Planning Technician. New to this year is the inclusion of a full-time Code Enforcement Officer which has been historically accounted for in the Police Department.

There have also been significant changes in the materials and services line items, for instance the Contractual Services line item to pay for contractual planning services has been significantly decreased for the FY15 year due to the return of the Senior Planner. A carryover item from the FY14 budget is the Application Fees line item which reports a revised estimate of the cost for the Lane County Co-adoption of the Comprehensive Plan process (if the City is even required to pay the fee), in order to spread the cost of Lane County application fees over two fiscal years. There is no longer a line item for the Environmental Protection Agency (EPA) grant expenditures as the grant was completed in the 2013-14 budget year. Vehicle and Operation line item has been added this year because the Code Enforcement Officer has a City vehicle assigned to that position.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

		<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
DEPARTMENT: BUILDING	STAFF LEVEL FTE:	1.5	1.0	1.0
PROGRAM: COMMUNITY DEVELOPMENT	FUND: GENERAL FUND			

Department Description

The Building Department is responsible for administering all functions related to execution of State Building Code regulations. Personnel assist the public in determining when permits are required, the type of permits necessary, fees, scheduling inspections and issuance of licenses. In addition the staff issues sign permits, assigns addresses, and maintains historical building records.

Budget Comments

Revenues to support the Building Department come primarily from Building Permit Fees (79%) with the remaining source of funding from unrestricted General Fund revenues (21%). The recession has seen a gradual turnaround over the past year. Between FY13 and FY14, the City of Florence realized an approximate 20% increase in building permit revenue. Due to this trend, the proposed FY15 budget projects a 10% increase in building permit revenue over the current FY14 projections. Revised 2013-14 Building Permit Revenue projections are expected to be \$173,000. The budget includes our best estimate that 2014-15 building permit activity will increase approximately 10% or \$190,800.

Significant Changes

The Building Department has seen quite a few changes over the course of the fiscal years ending 2012, 2013, 2014 resulting from the recession. In FY13 the Building Official position was eliminated and the City began contracting building inspection services with a company called "The Building Department LLC" to perform the plan review and inspections necessary to ensure building safety and to comply with state law. The City pays "The Building Department LLC" 75% of building permit fees to perform their services. In response to the gradual increase in building department revenue, the inspection services expenditure line item includes a substantial increase from the FY14 budget from \$110,000 to \$143,000. This signifies an estimate of a 10% increase in costs for inspection services from current FY14 projections of \$130,000.

Should the City continue to see an increase in building permit activity, staff will assess the building department activity to ascertain whether or not it would behoove the City to re-establish an in-house Building Official position.

There have also been minor changes to the materials and services line items, including additional estimates for supplies for the purchase of building code books and vehicle operation to cover important maintenance to the building department vehicle.

			<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
PROGRAM:	MUNICIPAL COURT	STAFF LEVEL FTE:	2.0	2.5	2.5
FUND:	GENERAL FUND				

Program Description

It is through the Municipal Courts that most citizens in the City come into contact with the judicial system, either as a defendant, a victim, or a witness. The Municipal Court staff provides equal access to a fair and effective system of justice for all without excess cost, inconvenience, or delay, with sensitivity to an increasingly diverse society.

Budget Comments

Revenues to support the Municipal Court Department are derived primarily from Fines Revenue (86%) with the remainder coming from unrestricted General Fund revenues (14%). The municipal court employees facilitate the process for judges, attorneys, and clients, by administering the daily court business. They schedule trial dates, handle all official correspondence, and oversee a wide-variety of criminal cases and violations. Materials and services expenditures provide for contract services for our Judge, Public Defender and Prosecutor.

Significant Changes

The 2013-14 Municipal Court budget contained significant changes that included the addition of two court days per month, with a corresponding increase in pay for the Judge; an adjustment in the City contract prosecutor's hourly rate of pay; and the conversion of a temporary employee to a part-time City employee. The Municipal Court Department 2014-15 budgeted operational costs have remained virtually the same in comparison to the previous year. The budget for this year continues the increased level of service with two additional court days per month that were approved in last year's budget.

The City has had the opportunity to dedicate extra time in Court to Show Cause Arraignments. The benefit of the Judge being able to hold defendants accountable has had a positive impact on the City's fine collection rates. With the changes made in the previous budget year the Court revenue is on track to increase 4% or \$10,000 in court fine collections over the last twelve months. Revenues budgeted for the 2014-15 year (\$265,000 Fines Revenue) project that we will continue the trend into this budget year.

FISCAL YEAR 2014 – 2015**

FY13 FY14 FY15

PROGRAM: POLICE

STAFF LEVEL FTE: 22.5 23.0 23.0

FUND: GENERAL FUND

Department Description

The Police Department's mission is to efficiently provide quality law enforcement services to our community by promoting a safe environment through a police-citizen partnership with an emphasis on mutual trust, integrity, fairness and professionalism. This program is comprised of public safety, corrections, administration and communications including a 911 Public Safety Answering Point (PSAP).

Budget Comments

Revenues to support the department's services come from charges for services derived from intergovernmental and other agency agreements, various ongoing operational grants, transfers in from the 911 Emergency Fund and from the City's General Fund unrestricted sources (property taxes).

This budget includes a fully staffed police force managed by the Police Chief and Lieutenant which consists of two sergeants, 11 police officers, six communication officers, one communication supervisor, and one administrative assistant. The Police operations deliver direct law enforcement and investigative services to the community. Police officers handle over 16,000 calls for law enforcement services each year. Nearly 8,000 of those calls for service require investigation, documentation, written reports, and follow-up each year. In addition to their patrol and investigation activities, officers serve as active members on two interagency teams.

The program's Emergency Communications (9-1-1) Center receive, dispatch and/or route all incoming calls for medical, fire, and police service in the Florence, Western-Lane County and Central Coast area. Annually they process more than 3,600 calls for emergency services.

Significant Changes

Upon the retirement of the previous Police Chief in January 2014, the personnel staffing needs of the Police Department were assessed and changes have been included in 2014-15 budget. At the time the 2014-15 budget document was prepared the City of Florence was in the process of recruiting a Police Chief. New to the Police Department's Budget is a full-time Correction Officer (included in the Police Officer Personnel Expenditure line item). This new position was added January 2014 as a result of the 2013 City Council Goal, "Assess the amount of police officer's time spent in the jail, on transports, court days, and arraignment for justification of an additional officer." After assessing the City's overall personnel needs the part-time Code Enforcement Officer position was transferred to the Planning Department as a full-time employee. In addition, after evaluating the needs of the Communication Dispatch Department, it was determined that the needs of the agency and those of the West Lane PSAP user group would be better met by re-establishing the Communication Supervisor position instead of the Lieutenant overseeing the daily operations. That position will be replaced by a vacant communications officer position so this will not result in an increase in FTE. Lastly, the 2014-15 personnel budget has been prepared based on the current terms of the existing Florence Police Employee Association contract, which expires June 30, 2015.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

PROGRAM: POLICE, CONTINUED

FUND: GENERAL FUND

While the Police Department has been under contract by an Interim Police Chief a preliminary assessment of the Justice Center building has been done. Many areas of desolation have been brought to management's attention in the way of deferred maintenance and equipment replacement. Now that the financial obligation of the building's bond debt service is completed this budget year it is prudent for the City to protect its investment. Once a final facility assessment has been done, staff will need Council to make a policy decision on financing to address the desolation. The Department also intends to purchase updated taser/radar units and alarms/surveillance cameras to replace the existing deteriorating or nonexistent equipment. Because of this the materials and services budget is roughly \$30,000 higher than the previous year.

The Police Department strives to maintain adequate staffing levels to provide core public safety services to our citizens. Administrative costs are kept at minimum due to a strong Police Auxiliary group that provides support services to the police operations by fingerprinting, registering sex offenders, filing, run errands, visible presence at the schools, some jail duties and assist in retrieving records when dispatchers are working solo. In recognition of the Auxiliary and Reserves work performed for the Police Department a new line item (Volunteer Supplies Expense \$5,000) has been added to pay for related expenses (such as uniforms and training) and show an investment back into these two integral volunteer groups.

Adequate Police Department vehicle fleet rotation was not maintained for a period of about five years from 2007 to 2012. In order to get on track, a vehicle fleet inventory has been created and as new vehicles are purchased, older ones will be rotated off-line and auctioned to the general public. The FY15 Police Capital Budget includes \$120,000 for the purchase of two police vehicles. Debt service expenditures include payments for an existing loan with Siuslaw Bank for the two Ford squad cars purchased in FY13.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

PROGRAM: ADMINISTRATIVE

FUND: GENERAL FUND

PROGRAM DESCRIPTION

The Administrative Program is made up of four departments that provide support services to all City operations and are further described below. The Administrative Program is funded in part (42%) by internal transfers from benefitting Programs (Streets, Water, Wastewater and Stormwater) with the remainder funding source (58%) coming from unrestricted General Fund revenues.

CITY COUNCIL/MAYOR DEPARTMENT

The City Council / Mayor Department accounts for the materials and services costs to support the activities of our volunteer elected officials. The City Council consists of a Mayor and four councilors and they are the governing body of the City. The City Council is responsible for enacting city laws and formulating policy as required by city charter. Changes to the department for the upcoming year include a decrease of approximately \$22,000 because the City had budgeted in the previous year the cost to hire a consultant to assist with facilitating the FEC Special Committee Process. As it turned out those services were not needed.

CITY MANAGER/RECORDER DEPARTMENT

	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
STAFF LEVEL FTE:	3.5	3.0	4.0

The City Manager's Office provides oversight and direction to ensure that all departments are responding to the City Council goals, applying policy consistently, and identifying key issues that need Council direction. The City Manager's Office also provides staff support for the Florence Urban Renewal Agency (FURA). The department includes the City Recorder/Economic Development Coordinator, Assistant to the City Manager, and a Human Resource Coordinator. Each is assigned public outreach, elections, business/special events/liquor licenses, records retention, economic development and human resources for the entire city.

The most significant change in the 2014-15 budget is in personnel costs. During the 2013 and 2014 fiscal years the City Recorder also acted as Interim Planning Director. Since that time the City Manager has assessed staffing needs in the Planning/Building Department and City Manager's Office has determined to hire a Planning Director in the proposed budget year. The City Recorder position will return to a full-time position for the City Manager's Office's budget and will take on the added responsibilities of being the Economic Development Coordinator.

Additionally, the Human Resources Coordinator will become a full-time position in 2014-15 (previously it was a 30 hour per week position) and the Executive Assistant position title has been changed to adequately reflect increased job responsibilities that are consistent for an Assistant to the City Manager. Some other changes have occurred to the materials and services categories – most significantly in the Contractual Services to pay for an employee compensation salary survey, labor negotiations (for police association), and in the Records Retention line item to achieve results as it relates to the Council Goal.

BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015

PROGRAM: ADMINISTRATIVE, CONTINUED

FUND: GENERAL FUND

<u>FINANCE/I.T. DEPARTMENT</u>	STAFF LEVEL FTE:	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
		3.0	3.5	3.5

The Finance/I.T. Department provides financial services to the entire City which includes budgeting, general ledger accounting, cash receipting, payroll, accounts payable, improvement districts and fixed asset management. In addition the Finance Department is responsible for billing, collecting, and managing the utility billing services for nearly 4,000 customers. Beginning with the FY12 budget the informational technology (I.T.) purchases were consolidated to and accounted for within the Finance Department's budget. A significant capital project to update our City's phone system to a VOIP platform and install a city-wide intranet was completed during FY13. Furthermore, the Finance Department completed the Caselle Clarity financial accounting software upgrade in FY14. There is \$105,000 budgeted for I.T. to continue updating the City's computer equipment, servers, and workstations that is identified in the 5 year I.T. Plan.

<u>CITY HALL DEPARTMENT</u>	STAFF LEVEL FTE:	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
		1.0	1.0	1.0

The City Hall department budget includes expenses for the operations and maintenance of the city hall building and personnel costs for our building maintenance technician. Materials and services cover utility costs, supplies and maintenance for the building. Starting in 2013, staff began working with Central Lincoln PUD and the Bonneville Power Administration (BPA) on an energy efficiency audit, checking the City Hall facility for weatherization and HVAC efficiency and effectiveness. With the audit completed in early 2014, staff utilized that data to help secure grants for energy efficiency upgrades.

With the completion of the HVAC, water heater and insulation projects, the capital improvements expenditure line item has been reduced from \$90,000 in FY14 to \$25,000 for FY15, in order to replace weather damaged city hall building exterior siding in a few locations, as well as an exterior paint job.

This year we had the Fire Marshal test the fire alarm at City Hall in preparation for a city-wide fire drill. During this inspection it came to our attention that our system was not working. A new alarm was purchased with FY14 funds; however a maintenance agreement for monitoring needs to be added to this budget. Therefore an expenditure of \$500 (annually) has been included in the FY15 budget.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

	<u>FY13</u> <u>FY14</u> <u>FY15</u>
PROGRAM: PARKS	STAFF LEVEL FTE: 1.0 1.0 1.0

FUND: GENERAL FUND

Department Description

The Park fund administers all park operations for the City. The mission is to maintain our park and recreation facilities, including the trail network, in a safe and clean manner while continuing to provide a variety of outdoor recreation opportunities.

Budget Comments

Revenues to support the department's services come from the City's General Fund unrestricted revenue sources. The Parks Program does not generate a charge for service or a system development charge.

The Florence Parks and Recreation Master Plan was completed in January 2011 and includes a prioritized list of parks and recreation capital improvements. However, the City's current General Fund sources are only enough to provide minimum levels of maintenance of our parks. Donations and volunteer hours over the last two fiscal years have substantiated the importance of parks in the community and without both the City would not be able to enhance or maintain the existing park system.

Since last summer, Parks Volunteer Groups have provided more than 100 hours of labor cleaning, beautifying and maintaining our parks and trails. Boy Scouts of America Troop 721, Sonshine Christian School, Delta Gamma of ESA, Florence Kiwanis Club and the Rhododendron Society are all examples of community groups committed to maintaining our parks system.

Significant Changes

The most significant change in the budget for next fiscal year reflects an increase in seasonal labor. The FY15 request for a total of 1,640 hours of seasonal labor represents the same amount of hours budgeted in FY14, but reflects a slight increase in the hourly rate in order to be competitive with other seasonal labor employers such as Lane County and Oregon State Parks. 1,640 hours will provide for two seasonal employees for 14 weeks each (to be split between summer and spring), as well as funding for a year round part-time employee (10 hours per week) for the Old Town area. The seasonal/part-time employees will be contract employees through Cardinal Services.

In an effort to meet the most basic operating needs of the Parks Department, the FY15 budget material and services shows an increase of \$7,100 in funding requests over FY14. Although this funding request is an increase over the prior budget year, it is still a reduction of \$12,700 from FY12.

The capital budget includes only one item; the installation of an additional video surveillance unit at Miller Park. This will add a view of the baseball fields from the west, as well as the west side of restrooms. The existing video surveillance units have proven themselves effective as we have been able to identify the individual(s) that have vandalized the park, and hold them accountable through our police and court system.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

FY13 FY14 FY15

STAFF LEVEL FTE: Not Applicable

PROGRAM: NON-DEPARTMENTAL

FUND: GENERAL FUND

Program Description

The General Fund's Non-Departmental Program is set up so the City can allocate a portion of funds from our State Shared Revenue to certain organizations that provide a specific service in the Florence Community. This year the FY15 budget includes a \$16,300 request from Siuslaw Outreach Services (S.O.S.) and a \$31,500 request from Lane Transit District (L.T.D) for the City's share of operating the Rhody Express.

In addition, the Non-Departmental Program accounts for transfers out to other City Funds. As in previous years the FY15 Budget Transfers Out section includes a General Fund Subsidy to the Airport Fund (\$22,400) and a transfer out to the Debt Service Fund that represents the General Fund's share of the 2010B Bond debt service expenditures (\$29,325). A significant change in this year's Non-Departmental budget is the new addition of a \$145,000 transfer out to the Events Center Fund (FEC) to subsidize operations. This is a direct result of the financial policy decisions made by the City Council which stemmed from the recommendations made by the Special Events Center Committee in 2013. More information on this topic is in the FEC Fund narrative section.

Also included in the Non-Departmental Program is a contingency line item for \$760,000 which represents approximately 15% of the total General Fund FY15 budgeted expenditures. The City will continue to hold \$300,000 in Reserved Unappropriated Ending Fund Balance (UEFB). The Reserve UEFB represents the amount of additional property tax revenues that the City expects to collect now that the full permanent rate is being levied. The City Council will consider each year how they desire to spend the Reserve for the next budget cycle as subsequent evaluation of the FEC financial needs and other underfunded City services and programs are evaluated.

FISCAL YEAR 2014 – 2015**

FY13 FY14 FY15

STAFF LEVEL FTE: Not Applicable

FUND/PROGRAM: 911 EMERGENCY FUND

Program Description

The 911 Emergency Fund accounts for special purpose revenues received from the State of Oregon and other jurisdictions. These funds are used to operate the City of Florence emergency dispatch services. A transfer is made from this fund to the General Fund Justice Program where the dispatch personnel and operating costs are accounted for.

Significant Changes

The FY15 911 Emergency Fund Budget returns to typical levels after the City replaced dispatch consoles in FY14. A transfer out to the General Fund Police Department of \$207,505 has been included in the FY15 Budget.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

FY13 FY14 FY15

STAFF LEVEL FTE: Not Applicable

FUND/PROGRAM: Room Tax Fund

Program Description

The Room Tax Fund is a special revenue fund that accounts for revenues received from the City's 4% transient room tax (TRT). The allocation of the TRT has changed in the FY15 budget as a result of the financial policy decisions made for the sustainability of the Florence Events Center (FEC) in 2013. The most significant financial change is there will now be a 40/60 percent share of TRT revenues; allocating 40% to the Marketing Services Contract, and 60% to the FEC.

Therefore, the FY15 budgeted expenditures include \$111,200 for a marketing services contract and a \$166,800 transfer out to the Events Center Fund. This represents a 40/60 percent share of the expected FY15 \$278,000 in TRT revenue. Lastly, the TRT Fund includes a \$15,000 contingency line item. At the time the FY15 budget was prepared, the City projects that the FY14 TRT revenues will be \$15,000 greater than originally anticipated. Due to the timing of when the City will know final TRT revenue collections for FY14 and the FY15 budget process, the amount is held in contingency. Upon final TRT numbers, the City Council can decide how and if they wish to distribute the excess TRT funds in FY15 budget year.

			<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
FUND:	EVENTS CENTER	STAFFING FTE:	3.0	3.0	4.0
PROGRAM:	EVENTS CENTER				

Fund Description

The Florence Events Center (FEC) Fund is an enterprise fund used to account for the activities financed and operated for the FEC.

Budget Comments

The primary sources of revenues consist of rental fees, charges for services, intergovernmental revenues such as the Rural Tourism Marketing Project (RTMP) and operating transfers of Transient Room Tax (TRT) revenues from the Room Tax Fund, General Fund Transfer Subsidy and proceeds from debt.

The ability to sustain the facility is largely accredited to our exceptional volunteer support. In 2013 the FEC had 95 individual volunteers that donated a total of 6,220 hours. It is estimated that approximately half of the volunteers are consistently active. They do not receive pay; however the City is required to cover them under workers compensation insurance. Each volunteer hour contributed reduces our operational costs which keep the rental fees affordable for both outside and local organizations.

Friends of the FEC - The Friends of the FEC (Friends) are an organized 501(c)(3) non-profit organization sponsoring a variety of events such as the FEC Indoor Yard Sale, various concerts and most successfully the annual Winter Folk Festival. The money raised by the Friends is used to purchase items such as office computers, technical equipment and various items to enhance the facility.

Significant Changes

The financial challenges faced by the FEC was the City's #1 Council Goal in 2013. The City convened a special committee that met numerous times to address the significant funding issues. The special committee proposed and the Council accepted and adopted financial policies that have been incorporated the 2014-15 FEC Fund budget.

Revenues generated from TRT will continue to be transferred to the FEC Fund, just at a reduced amount. One of the key financial policy decisions made by Council was to do a 40/60 percent share of the TRT revenues; 40 percent Marketing Services and 60 percent to the FEC. The FY15 budget includes \$166,800 transfer in from the TRT Fund. This is a reduction from the previous year's TRT amount of \$200,000; however the FEC will continue to receive the full amount of the RTMP Grant funding (\$83,000). Furthermore, during the budget process the staff will propose a fee structure that will address concerns raised by the community to accommodate different users. The result of a modified fee structure is not expected to have a material effect on the expected Building Rental revenues included in the FY15 budget (\$110,000).

BUDGET NARRATIVE FISCAL YEAR 2014 – 2015

PROGRAM: EVENTS CENTER, CONTINUED

The Special FEC Committee reaffirmed the community's support of the FEC by suggesting that the General Fund financially support the Events Center operations in two ways. The first way is a direct subsidy (transfer from the General Fund to the Events Center Fund). The second is in a more indirect manner - the FEC will no longer pay their share of General Administrative Service's costs back to the General Fund. The City Council approved the concept of the General Fund "subsidy" and these amounts are reflected in the 2014-15 budget; a transfer in from the General Fund to the FEC Fund (\$145,000) and the discontinuation of the FEC Fund paying for their share of the Administrative Costs (\$60,000).

The FEC has had reduced staffing levels for the past three fiscal years; three full-time employees and four part-time temporary employees. The FY15-18 years of the Long-Range Financial Plan included a newly added FEC Office Coordinator position to provide administrative and ticketing office support so that the Community Outreach position can spend time on marketing. With the staffing addition, the FY15 budget reflects a reduced amount that only includes a part-time temporary employee to perform various maintenance and technical duties and for the Ticket Office contract employee which will only be used as necessary.

The Materials & Services expenditure section of this budget reflects significant changes in response to the special FEC committee recommendations and the resulting Council financial policy decisions. A new expense line item "Business Opportunity Fund" in the amount of \$20,000 has been added to allow management the ability to attract and retain conferences. If the Business Opportunity Fund can prove successful there will be a net increase of TRT revenue to the community. The marketing budget has been reset back to previous levels to increase marketing of events and to attract conferences.

The final new key financial policy to be implemented in the budget includes significant capital expenditures to preserve the FEC facility assets. For the first time since the FEC Building was built, the City will finance these improvements and upgrades with long-term debt. The significant \$220,000 in capital expenditures included in the budget will provide adequate funding to complete various equipment replacement and projects that include plans for the following: HVAC Replacement, HD Projection System, Roof Replacement, and kitchen facility equipment purchases.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
FUND/PROGRAM: STREET	STAFF LEVEL FTE:	1.0	1.0

Department Description

The Street fund administers all street operations for the City. The mission is to provide a safe and efficient multi-modal transportation system, including sidewalks.

Budget Comments

Revenues to support the Street Program's services primarily come from state highway apportionment (State gas tax), various grants, long-term debt proceeds, and the City's street utility fee.

Significant Changes

The Street Maintenance Utility Fee of \$5 per equivalent dwelling unit (no increase in FY15) generates an adequate amount of revenue to pay for both the City's street light electricity costs (\$114,000) and debt service expenditures on what the City expects to borrow annually to fund \$250,000 in Street Preservation & Improvement capital projects annually.

The City Council is considering placing a local gas tax measure on the November 2014 ballot; however this budget is reflective of the status quo, with only the Street Maintenance Utility Fee as the resource available to repay the necessary debt service in order to complete the Street Preservation & Improvement projects. If the local gas tax measure is successful, staff will recommend to the City Council that the Street Maintenance Utility Fee be reduced in order to only pay for the annual street light utility bills.

In addition to the Street Preservation & Improvement project, this budget's most significant capital project includes a multi-use path along Rhododendron Drive from 9th to Wildwinds streets. This \$1,000,000 capital project will begin construction in spring of 2015 (FY15). Construction will be completed in the fall of 2015 (FY16). This is an ODOT Transportation Enhancement (TE) grant funded project which will fund 90% of the project. Since part of the project qualifies as capacity increasing, the remaining costs (City's 10% match) will be funded by \$100,000 in SDC funds. Also included in the FY15 is \$50,000 capital item to begin reconstruction of the Spruce Street Culvert. Management's desire is to seek grant funding for the repair of this infrastructure. Finally, the Street Fund includes \$300,000 for the possibility of new capacity increasing transportation project with an offsetting transfer in from the Street SDC Fund. Management would only expend this money should a development project occur.

Debt service expenditures include \$38,000 for repayment of an existing loan that provided funding to purchase the Patch Truck. The amount of debt service is less in the FY15 budget than previous years because the loan for the Asphalt Zipper was paid off in FY14. The Siuslaw Bank debt service represents the cost of borrowing \$250,000 in the FY13 year for Street Preservation and Improvement projects. The New Debt Service line item represents the estimated amount to begin making repayments on FY14 and FY15 borrowings to fund the continuous preservation and improvement street projects supported by the Street Maintenance Fee.

The Street Fund Transfers Out expenses include payments on an interfund loan scheduled to be paid off in FY16. The Street Fund pays the Water SDC Fund \$24,000 annually and pays the Street SDC Fund \$80,000 annually.

FISCAL YEAR 2014 – 2015**

	<u>FY13</u> <u>FY14</u> <u>FY15</u>
FUND/PROGRAM: WATER	STAFF LEVEL FTE: 5.0 5.0 5.0

Department Description

The Water Fund mission is to provide safe, reliable, cost-effective water supplies and outstanding customer service in an environmentally sensitive manner. Revenues to support the Water Program's services come from water charges for service to customers. Debt service expenditures are for repayment of existing loans that provided funding to make capital improvements to existing infrastructure and to purchase operational equipment and vehicles.

Significant Changes

We are very pleased to report that instead of the 3.5% water rate increase that was forecasted in our updated long range financial plan, the FY15 budget reflects only a 1% water service charge increase and no increase in the well-rehab fee. The forecasted rate increase was reduced due to a new surplus water customer that will purchase between \$47,000 - \$57,000 of water per year. This new customer plus a very minor 1% water service charge increase will allow us to cover the cost of services and provide adequate revenue streams to support existing debt service expenses.

The significant reduction (\$30,000) in materials and services expenditures is a result of the EPA Urban Waters Grant ending in September 2014. Other than that material and services budget is relatively unchanged compared to the previous year. We are doing our best to "live within our means" and we are making progress on deferred major capital improvement projects. However, we still have a long way to go in improving upon technologies such as automated meter reading (AMR) and water line replacement programs.

A significant change has occurred in the Water Fund debt service section for the 2014-15 budget. Historically the City has paid for the General Obligation (G.O.) Water Treatment Plant Bond debt service costs (which average around \$200,000 per year) with the revenue generated from water service charges. As part of preparing for the financing costs that the Water Fund will bear as a result of a proposed new Public Works Operations Facility, the City has changed the way in which to pay for the Water Bond debt service expenditures in the G.O. Bond Debt Service Fund. For further discussion of this item, please reference the narrative section for the G.O. Bond Debt Service Fund.

This budget includes capital projects and carry-forwards of two unfinished projects from the 2013-14 budget year. One carryover project is the completion of Well #13 for \$145,000. The second project is the East Reservoir Pump Station project which was originally budgeted in 2013-14 at \$155,000. The 2014-15 budget now includes an amount adequate to complete the project based on actual engineering specifications that includes electrical systems upgrades from 3 phase 240 volt service to 3 phase 480 volt system (requirements from our electrical provider) and backup emergency power generator for a total cost of \$345,000.

**CITY OF FLORENCE - BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

FUND/PROGRAM: WATER, CONTINUED

A new FY15 project funded with current year well rehab fees is the completion of Well #3A in the amount of \$55,000. The East Reservoir Roof Replacement project was completed in the 2013-14 budget year by contracting with Utility Service Company which uses a sustainable and holistic approach to water reservoir maintenance that provides full coverage of all aspects of tank maintenance, including active water mixing systems (to avoid stratification in the tank – stratification can lead to the development of disinfection by-products), tank cleaning, repair and inspections. Their approach moves us from being reactive to a predictable maintenance program approach. This is achieved through annual inspections, which are used to determine what repairs are needed and at what interval these renovations will be required. Continuing into the second year of that contract the City has allocated \$250,000 to perform additional significant capital improvements at the two 2 million gallon water storage tanks site. We are also requesting \$50,000 to purchase a new service truck as part of our vehicle fleet rotation. The current service truck is at the end of its useful life and we are experiencing major engine, transmission and running gear issues with the vehicle.

The Water SDC Fund revenue budget includes re-payments on two separate inter-fund loans. The Street Fund pays \$24,000 annually (scheduled to be paid off in FY16) and the Stormwater SDC Fund pays \$34,000 annually (this is the last year to - paid off in FY15).

**CITY OF FLORENCE - BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

	<u>FY13</u> <u>FY14</u> <u>FY15</u>
FUND/PROGRAM: WASTEWATER	STAFF LEVEL FTE: 5.0 5.0 5.0

Department Description

The Wastewater Fund mission is to provide safe, efficient and cost effective wastewater collection, treatment and bio-solids handling operations that are compliant with federal and state regulations.

Budget Comments

Revenues to support the department's services come from sewer charges for service to customers.

Debt service expenditures are for repayment of existing loans that provided funding to purchase a replacement utility vehicle. Additionally, the Wastewater Fund has debt service expenditures for repayment of existing loans for the expansion of the wastewater treatment plant, replacement of the Rhody Drive sewer force main, and the Florence trunk sewer replacement project.

Significant Changes

The FY15 budget reflects a proposed 2% wastewater charge increase for services to keep up with the increase in the cost of services and to provide adequate revenue streams to support debt service expenses.

Providing wastewater and drinking water service to citizens requires energy—and a lot of it. The twin problems of steadily rising energy costs and climate change have therefore made the issue of energy management one of the most salient issues facing wastewater and water utilities today. Energy management is also at the heart of efforts across the entire sector to ensure that utility operations are sustainable in the future. More and more utilities are realizing that a systematic approach for managing the full range of energy challenges they face is the best way to ensure that these issues are addressed on an ongoing basis in order to reduce climate impacts, save money, and remain sustainable. To that end, Public Works enrolled in a Sustainable Energy Training program through Oregon Association of Clean Water Agencies. The training provided our plant operators a proactive and systematic approach for reducing energy consumption and energy costs. The training has already proven itself. By replacing inefficient sewer pumps and motors, we are already seeing a 33-percent decrease in power consumption at one of our recent pump station rehabilitation projects.

Not only are the new pumps and motors more energy efficient, but they are also guaranteed to be non-clogging and will provide a minimum of 20% energy savings. Coupled with an automatic flush valve, the pump provides a powerful cleansing jet stream to clean the wet well at the start of each pumping cycle. This reduces the risk of solids and grease build-up and increases both pump efficiency and service. Building upon our recent successes, we have included in the FY15 budget \$65,000 to rehabilitate the following three sewer pump stations: Willow Dunes, \$21,300; Siuslaw Village, \$23,500; and two of the older pumps at Ivy Street for \$20,000.

During the next year we will begin the Rhododendron Drive Gravity Sewer Project. Phase one includes \$40,000 in capacity increasing improvements with the remaining \$310,000 of the project dedicated to improving the existing infrastructure. Also included in our FY15 budget request is \$200,000 for old sewer line replacements. Currently we are targeting two possible locations, one on Juniper Street between Rhody and 8th Street and another in the Siano Loop area.

**CITY OF FLORENCE - BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
FUND/PROGRAM: STORMWATER	STAFF LEVEL FTE: 1.0	1.0	1.0

Department Description

The Stormwater Fund mission is to provide stormwater management in a safe, cost efficient and effective manner while complying with federal and state regulations.

Budget Comments

Revenues to support the department's services come from stormwater charges for service to customers. There is no Stormwater fee increase being requested in FY15. This will be the third year in a row that the City has not raised Stormwater rates. The Stormwater Fund has proven itself to be a model for the other utility enterprise funds within the City. It is efficient, effective, sustainable and provides an outstanding service to the community.

Debt service expenditures are for continued repayment of existing loans that provided funding to purchase the street sweeper in 2007. The FY15 budget year is the last year of this loan. Transfers out include a payment to the 2010B Bond Fund to pay for the Stormwater Program's share of debt service costs related to the Munsel Creek Relief Stormwater Project and the Coast Village stormwater project.

Significant Changes

This budget includes a carryover project from FY14 dedicating \$250,000 for construction of one of the City's top priority (as identified in the City's 2000 Stormwater Management Plan) stormwater projects to improve the stormwater drainage in the Siano Loop area. Engineering work is currently underway and construction is slated to begin in July 2014. Additionally, there is \$20,000 available to address unforeseen facility and equipment upgrades to the stormwater system.

During the fall of 2012, we experienced several intense rain events, with actual rainfall of close to 1-inch within a 30 minute span on three separate occasions. Although we have completed a number of major stormwater projects, these major storm events have highlighted the need to complete the 6th Street stormwater project from 6th and Ivy to a new outfall into the Siuslaw River to prevent localized flooding west of Kingwood Street. For FY15, we have included a request for \$200,000 to perform the engineering design and begin construction on the Old Town Storm Drainage Project.

The Stormwater System Development Charge (SDC) Fund is slowly rebuilding after being depleted to fund major stormwater improvement projects such as the Maple Street stormwater improvement project (9th to 6th Street); 6th Street stormwater project (Maple to Juniper Street) and a portion of the Munsel Creek Relief Stormwater Project. This is the last year of the Stormwater SDC interfund loan where the Fund is repaying \$54,000 annually to the Street and Water SDC Funds.

FUND/PROGRAM: PUBLIC WORKS ADMINISTRATION

	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
STAFF LEVEL FTE:	4.0	5.0	5.0

Department Description

The Public Works Administration (PW Admin) is a program created in FY12 to account for costs related to the administration of all Public Works operations for the City. The mission of PW Admin is dedicated to professionally maintaining and improving the current infrastructure of water, wastewater, stormwater, street, airport and park services, to the highest possible standards for our community. We will continually look ahead to plan for and provide services that will allow the City of Florence to meet its future goals.

Budget Comments

Revenues to support PW Admin's services come from transfers from the various Public Works Programs (Water, Wastewater, Stormwater, and Streets).

The major cost centers within Materials and Services for PW Admin is utilities for the operations center; telephone and internet expenses; general office supplies for all divisions; vehicle maintenance for three vehicles; and maintenance agreements for copier services, postage machine services, GIS software support and AutoCAD software support.

Significant Changes

This budget year is the fourth year of the PW Admin Program and we are able to more accurately budget for personnel services and materials and services expenditures. The significant change in the PW Admin Program is a \$13,000 or 3% reduction in personnel costs. During the Spring of 2014 a long-term City employee retired from the GIS Technician position. At the time this budget was prepared we budgeted wages and benefits for what we expect this position to be at once filled with a new employee. In addition, materials and services have been increased by \$5,300 or 9% to adequately cover expected costs for the 2014-15 budget year.

In order to continue progress on the 2014 City Council Goal "*Secure Location and Financing of a New Public Works Facility*" the current year capital item includes \$300,000 for the beginning engineering and architectural design phase of the much anticipated Public Works Operations Facility. The City intends to fund the construction project with long-term debt financing, including grants, if possible.

FISCAL YEAR 2014 – 2015**

	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>
FUND/PROGRAM: AIRPORT	STAFF LEVEL FTE (Contract):	0	0
		0	0

Department Description

The Airport fund administers all airport operations for the City. The mission is to provide a safe and functional airport for corporate and general aviation while continuing to provide airport maintenance that complies with Federal Aviation Administration (FAA) safety standards.

Budget Comments

The traditional revenue stream to support the program's services comes from airport hangar ground leases (airport receipts) and fuel sales.

The Florence Municipal Airport Master Plan Update was completed in February 2010. We have completed the apron expansion project, which utilized all of our FAA non-priority entitlement funds (Airport Improvement Program funds) in addition to three years of future entitlement funds that we used for our project which will be repaid to Lake County for their non-priority entitlement funds for the Lakeview airport. Each year, the City of Florence receives \$150,000 in non-priority entitlement funds from the FAA and we can accumulate a maximum of three years' worth of entitlement funds in order to complete large scale projects, as we did for the apron expansion project. In order to complete our \$1,000,000 expansion project, during FY12, we entered into a funding trade agreement with Lake County. Our last non-priority entitlement fund transfer to Lake County will occur in FY15. The next major project for the airport, which will utilize federal non-priority entitlement funds, is a runway rehabilitation project that will begin in FY18.

Debt service expenditures of approximately \$50,000 annually are for the repayment of an existing loan that was obtained for the Kingwood Street Expansion. This loan will be paid in full in FY17.

Significant Changes

There will be a positive impact to the Airport Fund as the City Public Works Department moves forward with one of the 2014 City Council Goals "*Secure Location and Financing of a New Public Works Facility.*" New to this year's Airport Budget is the addition of a "Lease of Airport Property" revenue line item in the amount of \$30,000. This represents the expectation that the City and the Public Works Department will successfully negotiate a land lease for the site of the proposed Public Works Operations Facility in the Pacific View Business Park. If the timing of the lease doesn't occur in FY15, the City will need to subsidize the Airport Fund another year in the amount of \$22,400.

Airport operational expenses are fairly minimal, with \$23,650 budgeted for materials and services (excluding fuel purchases). When we look at the total expenditures for materials and services in FY15 as compared to FY12, including fuel purchases, material and services has been reduced by 24%. The current budget does not include a capital project.

The FY15 budget is the third full year in which the City does not have an Airport manager on staff. With that, the City is very fortunate to have a grass roots effort from the users of the airport that formed the Airport Volunteer Group (AVG) to provide a presence at the airport, security and a willingness to perform tasks to keep the airport terminal building open seven days a week. Even with this volunteer group there are still many airport operations costs that are not covered by existing revenues.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

FUND: GENERAL OBLIGATION BOND DEBT SERVICE FUND

FY13 FY14 FY15

STAFFING FTE: N/A

Fund Description

The General Obligation (G.O.) Debt Service Fund is used to account for general obligation bonds of the City. The Justice Center G.O. Bond was approved by a vote of the people to provide funding for the construction of the Justice Center building. The bond will be paid in full in this budget year (FY15).

In 2003, the City of Florence identified the need to make significant improvements to the water infrastructure system including the expansion of the drinking water plant and well field. The bond was passed by the vote of the people which allows the City to impose a tax sufficient to pay the principal and interest on the bond. In 2013, the City re-financed the bond with US Bank, keeping the general obligation voter approved nature for a “debt service” levy. Historically the Water G.O. Bond has been paid for in the Water Fund from water service fee revenues. However, in anticipation of additional debt service costs that the City will incur for the new Public Works Operational Facility and the desire to keep water rate increases at a minimum, the City has chosen to shift the remaining 2013 Water G.O. Bond debt service costs to the G.O. Bond Debt Service Fund beginning this budget year (FY15). The Water Bond will be paid off on June 1, 2022.

Another factor in leading to this decision is the timing in which the Justice Center G.O. Bond (discussed above) will be paid off in the FY15 budget year. The Water Bond debt service cost, of approximately \$200,000 annually, is less in comparison to the Justice Center Bond which is approximately \$300,000 annually. Therefore, the impact to citizens’ property tax bills should be lessened due to this change.

As a part of the budget process, the Budget Committee will approve and the City Council will adopt a G.O. Bond Debt Service levy amount sufficient to pay for the current year’s debt service expenditures.

BUDGET NARRATIVE FISCAL YEAR 2014 – 2015

FY13 FY14 FY15

FUND: FLORENCE DEBT SERVICE FUND

STAFFING FTE: Not Applicable

Fund Description

The Florence Debt Service Fund pays for various bond issues and long-term debt that were incurred to complete major community capital improvements. This fund is comprised of five sub-funds that are further described below.

Events Center Debt Service Fund This sub-fund is used to account for the payment of the bonded debt incurred to construct the Events Center that opened its doors in 1996. Resources to pay this debt are derived from an Intergovernmental Agreement (IGA) with Lane County that provides the City with resources to pay the debt service requirements each year up to \$190,000. The agreement also states that the amount in excess of debt service payments can be used for the Events Center operations budget.

Unfortunately, this long-standing IGA expires June 30, 2014. In response to this the City beginning with the FY13 Budget year, did not transfer the excess amount to the Events Center operations budget. Instead the amount has been held in reserve (see "Carryover" line item of \$112,919) to go towards paying for future debt service requirements. Furthermore, the payment from the County in FY14 included an additional \$46,974 for funds that the County has withheld for the previous six payments. The County was withholding \$7,829 annually to help with their budget shortages.

The final two payments (that make up approximately \$315,300) on the FEC Debt are due August 15, 2014 and 2015. As has been discussed, the City has approached Lane County Commissioners and Management about the possibility of extending the IGA to pay for the amount needed to cover the debt service expenditures in FY15 and FY16. County Commissioners have been agreeable to this idea and it has been included in their proposed budget document. We will not know the results of their decision until their budget process is complete. The FY15 budget includes a revenue line item from Lane County for \$95,600. Should the IGA extension request not be successful the City will need to do a supplemental budget to transfer resources from the General Fund.

Spruce Street LID Bond Fund This sub-fund is used to account for special assessment revenue from a local improvement district (LID) and the servicing of related bonded debt incurred for the infrastructure improvement of a Spruce Street development.

FFC 2010B Bond Fund This sub-fund is used to account for the full-faith and credit (FFC) bonds that were issued in November of 2010. Bond proceeds were used to finance new projects for the Justice Center and Stormwater and Wastewater operations as well as retire the Clean Water State Revolving Loan Fund Debt. The funds benefitting from the proceeds from this issuance are responsible for their allocated share of future debt service payments recorded as transfers out/in in the respective funds.

Debt Service Fund This fund is used to account for bonds that are issued for various community capital projects. Currently this fund accounts for only the LOCAP 2011C Bond issuance. The LOCAP Bond proceeds were used to finance new capital projects for the Streets, Water, and Wastewater programs as well as improvements for the Parks department and a much needed Information Technology (I.T.) overhaul to the City's network systems and servers. The funds benefitting from the proceeds from this issuance are responsible for their allocated share of future debt service payments recorded as transfers out/in in the respective funds.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

FUND: FLORENCE DEBT SERVICE FUND, CONTINUED

Bancroft Bond Fund This sub-fund was used to account for special assessment revenue from various local improvement districts and the servicing of related bonded debt incurred in the course of improvement construction. The final payment was made in FY12 – the Bancroft Bonds are now fully retired. This fund was officially closed in FY13, but remains in the budget document as required by Oregon Budget Law to show historical activity.

**BUDGET NARRATIVE
FISCAL YEAR 2014 – 2015**

		<u>FY13</u> <u>FY14</u> <u>FY15</u>
FUND TYPE:	TRUST & AGENCY	STAFFING FTE: N/A

FUND NAME: SENIOR CENTER TRUST & AGENCY FUND

Fund Description

The Florence Senior Center operations have been contracted out to the Senior Center Boosters, a nonprofit entity. During the fundraising campaign of the Senior Center Building this fund was used to account for those donations. At the completion of the fundraising campaign and construction there was a remaining amount leftover. The City disbursed completely the remaining funds to the Senior Center during the 2014 fiscal year. Beginning with FY15 there will no longer be a budget for this fund, but will remain in the budget document as required by Oregon Budget Law to show historical activity.

FUND NAME: EVENTS CENTER ENDOWMENT FUND

Fund Description

The City has an endowment fund set up dedicated to the Event Center Operations. The endowment fund itself is managed by Western Lane Community Foundation as a subfund of the Oregon Community Foundation. The principal is unspendable, however, the annual distribution or earnings are. This fund accounts for the investment activity as well as the annual distribution of earnings via transfer to the Events Center operations fund.
