

**CITY OF FLORENCE  
RESOLUTION NO. 9, SERIES 2016**

**A Resolution Authorizing the City of Florence, Oregon to Enter into a Single Source Purchase Agreement in the Amount of \$74,500 with Sustainable Generation, LLC for a Covered Aerated Static Pile "On-Floor" Composting System to Produce Class A Biosolids.**

RECITALS:

1. Public Works Department has researched and determined the need for a management program to produce class A biosolids.
2. From November 2010 through January 2011, the City successfully piloted and produced class A biosolids utilizing a GORE® cover system.
3. The City has purchased a GORE® cover system and since January 2013 has successfully produced a class A biosolids and said class A biosolids product has been given away to community members with overwhelming acceptance.
4. Sustainable Generation LLC, is the only authorized US based supplier of the GORE® cover system.
5. Funding is available in the FY17 Adopted Budget from the Wastewater Capital Outlay fund.

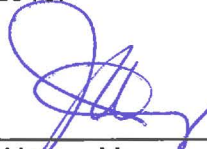

Based on these findings,

THE CITY COUNCIL OF THE CITY OF FLORENCE RESOLVES AS FOLLOWS:

1. The City Manager is authorized to proceed and enter into the Purchase Agreement between Sustainable Generation, LLC and the City of Florence, Oregon in the amount of \$74,500 for the purchase of a GORE® cover system for the production of class A biosolids.

ADOPTION:

This Resolution is passed and adopted on the 6<sup>th</sup> day of June, 2016.
