Re: 1200-C National Pollutant Discharge Elimination System (NPDES) Registration
Permit/PLC No.: NGEN12C-ORR10H135
Project Location: Rhododendron Drive, North from Fairview Lane, Florence,
Lane County

Dear Robbie Wright:

The Oregon Department of Environmental Quality (DEQ) has reviewed your application and approved your registration for coverage under the NPDES Construction Stormwater Discharge Permit 1200-C (permit). As the registrant, you are legally responsible for compliance with all permit conditions. See this link <https://www.oregon.gov/deq/wq/wqpermits/Pages/Stormwater-Construction.aspx> for a copy of the permit, technical assistance, and all relevant permit forms.

Registrant Obligations

- Comply with all permit conditions. DEQ strongly recommends that you read the permit.
- Fully implement your Erosion and Sediment Control Plan (ESCP). You may need to modify site control measures as site conditions change.
- Ensure that all appropriate contractors hired by you to implement the permit on your behalf have a copy of the ESCP and the permit. Keep a list of all contractors working on your site along with their contact information.
- Notify DEQ of significant projects changes, including ESCP revisions, inspectors, or project ownership changes.
- Perform & document visual monitoring according to Schedule B of the permit by a certified erosion and sediment control person.
- Terminate coverage at the end of the project. You will be charged an annual registration fee until registration is terminated.

The permit does not authorize excavation or fill in state waterways, including wetlands, and does not replace the requirement for receiving authorization to do this type of work under Section 404 of the Clean Water Act. If the authorized activity involves earthmoving in a known or suspected wetland condition you must contact the Department of State Lands at 503-986-5200 if you are west of the Cascades, or 541-388-6112 if you are east of the Cascades, and request a wetland determination prior to earth moving.

The construction stormwater general permit, technical assistance manuals and other information is also available on [DEQ Stormwater Program's website](#).

Sincerely,

[DEQ Stormwater Permitting Program](#)
