10-2937-1: PURPOSE: The Coast Village District is intended to provide a quality environment for residential uses and other compatible land uses within the Coast Village development. Coast Village began as a campground and has evolved into a residential community that accommodates permanent and seasonal residents; it is a unique residential community that allows a blend of recreational vehicles and conventional single-family homes, surrounded by greenbelt buffers between each lot to maintain a park-like setting. Coast Village development is self-governed by a homeowners association.

Greenbelt: An area on a lot extending five feet (5') from the side and rear property lines for "natural vegetation" to grow, to serve as a visual screen and to protect privacy between adjacent lots.

Height: The height of a structure is the vertical distance between the average finished grade at the base of the structure to the peak or crest of the roof of the structure.

Lot: Numerical lots as platted including both alphabetical lots combined with adjoining numerical lots and property line adjustments recorded by the effective date of this chapter. Does not include Lot 4, Block 1, Coast Village (Coast Village Homeowners Association Owned).

Natural Vegetation: Vegetation indigenous to the Florence region or other drought-tolerant species, which includes: Shore Pine, Fir, Hemlock, Spruce, Cedar, Rhododendron, Wax Myrtle, Manzanita, Madrone, Kinnikinic~~Kinikine~~ and Salal or as provided for in the City's plant list.

Permanent Dwelling: Site-built single-family dwelling; manufactured home, modular home, or other pre-manufactured home (no minimum floor area size); or self-contained mobile structure such as park models, recreational vehicles and motor homes that cannot be easily driven or pulled from the site. Screening or Buffering: Screening or buffering shall consist of sight-obscuring natural vegetation at least six feet (6') high, except as required by vision clearance.

Temporary Dwelling: Self-contained mobile structure such as park model, recreational vehicle and motor home that can easily be driven or pulled from the site (i.e. wheels and tongue still attached). There shall be no obstructions that would prevent the easy removal of the structure. Obstructions include but are not limited to: attached accessory structures, accessory structures placed to block the self-contained mobile structure, in-ground vegetation or landscaping, retaining or landscaping walls, foundation, hard-wired utilities, and hard-piped utilities.
