Subject: Comment on Helping Hands Move

Hello:

I am a local resident and firmly believe that Helping Hands should be allowed to move to the new location at 18th and Hwy 101. I have seen the need we have here in Florence for this service; I volunteer at Food Share and also cook free lunch at the Florence United Methodist Church. I realize that Helping Hands is not a commercial operation but feel an exception should be made.

I do realize that access and traffic patterns must be addressed so as not to adversely affect local businesses and also for safety. According to the statement made by Rick Hamilton in the 6/17/17 Siuslaw News, loitering issues have been addressed.

Issues come up in all communities and I believe that they can resolved in this case. There is no reason to expect that this move would cause any problems that could not be resolved. Helping Hands has been a good neighbor and we should support them.

Sincerely,

Karen Baylis

1780 Willow Loop, Florence
