Subject: Estuary Trail

Clare,

I meant to follow up after the last planning commission meeting on the planned Estuary Trail. I know there was some sound issues but I think I followed most of the discussion. My interest in being able to get over the bridge to the trail would be just so we can get to a hiker who has tripped and fallen and injured themselves. If we have access from a different area then that would work just as well. It looks like access from Redwood St will work. Access for an ATV is only a "nice to have" for us. We can pretty easily just walk in and carry someone out as well.
