

06/11/2024

Hello,

My name is Fred Young, and I'm one of over three dozen tennis players who have enjoyed playing on the 35th Street Tennis courts. I have been a certified USPTR associate tennis professional since 1991. And I am enjoying the company of over three dozen (36) very good tennis players here in Florence.

You have added six pickle ball court lines over top our courts we tennis players play on. Now you are adding two more courts just for pickle ball. They never use all six they have, at one time.

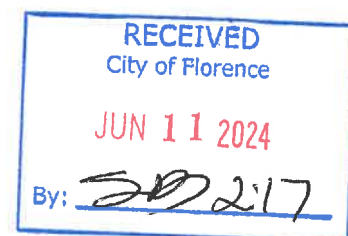

I have played tennis on the courts for over a year, Monday, Wednesday, and Fridays at 11am.

With the new addition added for pickle ball the Florence tennis community would appreciate you returning one of our tennis courts to us tennis players, without pickle ball lines interloping the tennis court. With the two new pickle ball courts added they will still have six courts to fill, and we can enjoy one of our original tennis courts. That's one true tennis court for over thirty tennis players here in Florence. I have a list for you to look at of tennis players presently playing in Florence. The list I'm showing you is 31 tennis players, and, new players have arrived this year. There are at least three dozen very good tennis players in our fair city.

Pickle ball players love there game. We love our Tennis equally. One tennis court without pickle ball lines is not a unreasonable request.

Respectfully

Fred Young
