Dear Ms. Rim:

The U.S. Army Corps of Engineers (Corps) received your request for an Approved Jurisdictional Determination (AJD) of the waters or water features, including wetlands, within the review area as shown on the enclosed drawings (Enclosure 1). The review area is located east of Rhodendron Drive and North of 35th Street Florence, Lane County, Oregon at Latitude/Longitude: 43.9992°, -124.118°. Other waters or water features, including wetlands, that may occur on this property or on adjacent properties outside the review area are not the subject of this determination.

The Corps has determined there are no waters of the U.S. within the review area. The enclosed drawings (Enclosure 1) identify the review area for this determination. The enclosed *Approved Jurisdictional Determination Form (Interim)* (Enclosure 2) provides the basis for our determination. A copy of the AJD Form can also be found on our website at <http://www.nwp.usace.army.mil/Missions/Regulatory/Appeals/>.

If you object to the enclosed AJD, you may request an administrative appeal under 33 CFR Part 331 as described in the enclosed *Notification of Administrative Appeal Options and Process and Request for Appeal (RFA)* form (Enclosure 3). To appeal this AJD, you must submit a completed *RFA* form to the Corps Northwestern Division (NWD) office at the address listed on the form. In order for the request for appeal to be accepted, the Corps must determine that the form is complete, that the request meets the criteria for appeal under 33 CFR Part 331.5, and the form must also be received by the NWD office within 60 days from the date on the form. It is not necessary to submit the form to the NWD office if you do not object to the enclosed AJD.

The delineation included herein has been conducted to identify the location and extent of the aquatic resource boundaries and/or the jurisdictional status of aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation and/or jurisdictional determination may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you

or your tenant are U.S. Department of Agriculture (USDA) program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center, prior to starting work.

This AJD is valid for a period of five years from the date of this letter unless new information warrants revisions of the determination.

We would like to hear about your experience working with the Portland District, Regulatory Branch. Please complete a customer service survey form at the following address: <https://regulatory.ops.usace.army.mil/customer-service-survey/>.

If you have any questions regarding our Regulatory Program or permit requirements for work in waters of the U.S., please contact Mr. Brad Johnson by telephone at (503) 808-4383 or email at brad.a.johnson2@usace.army.mil.

Sincerely,

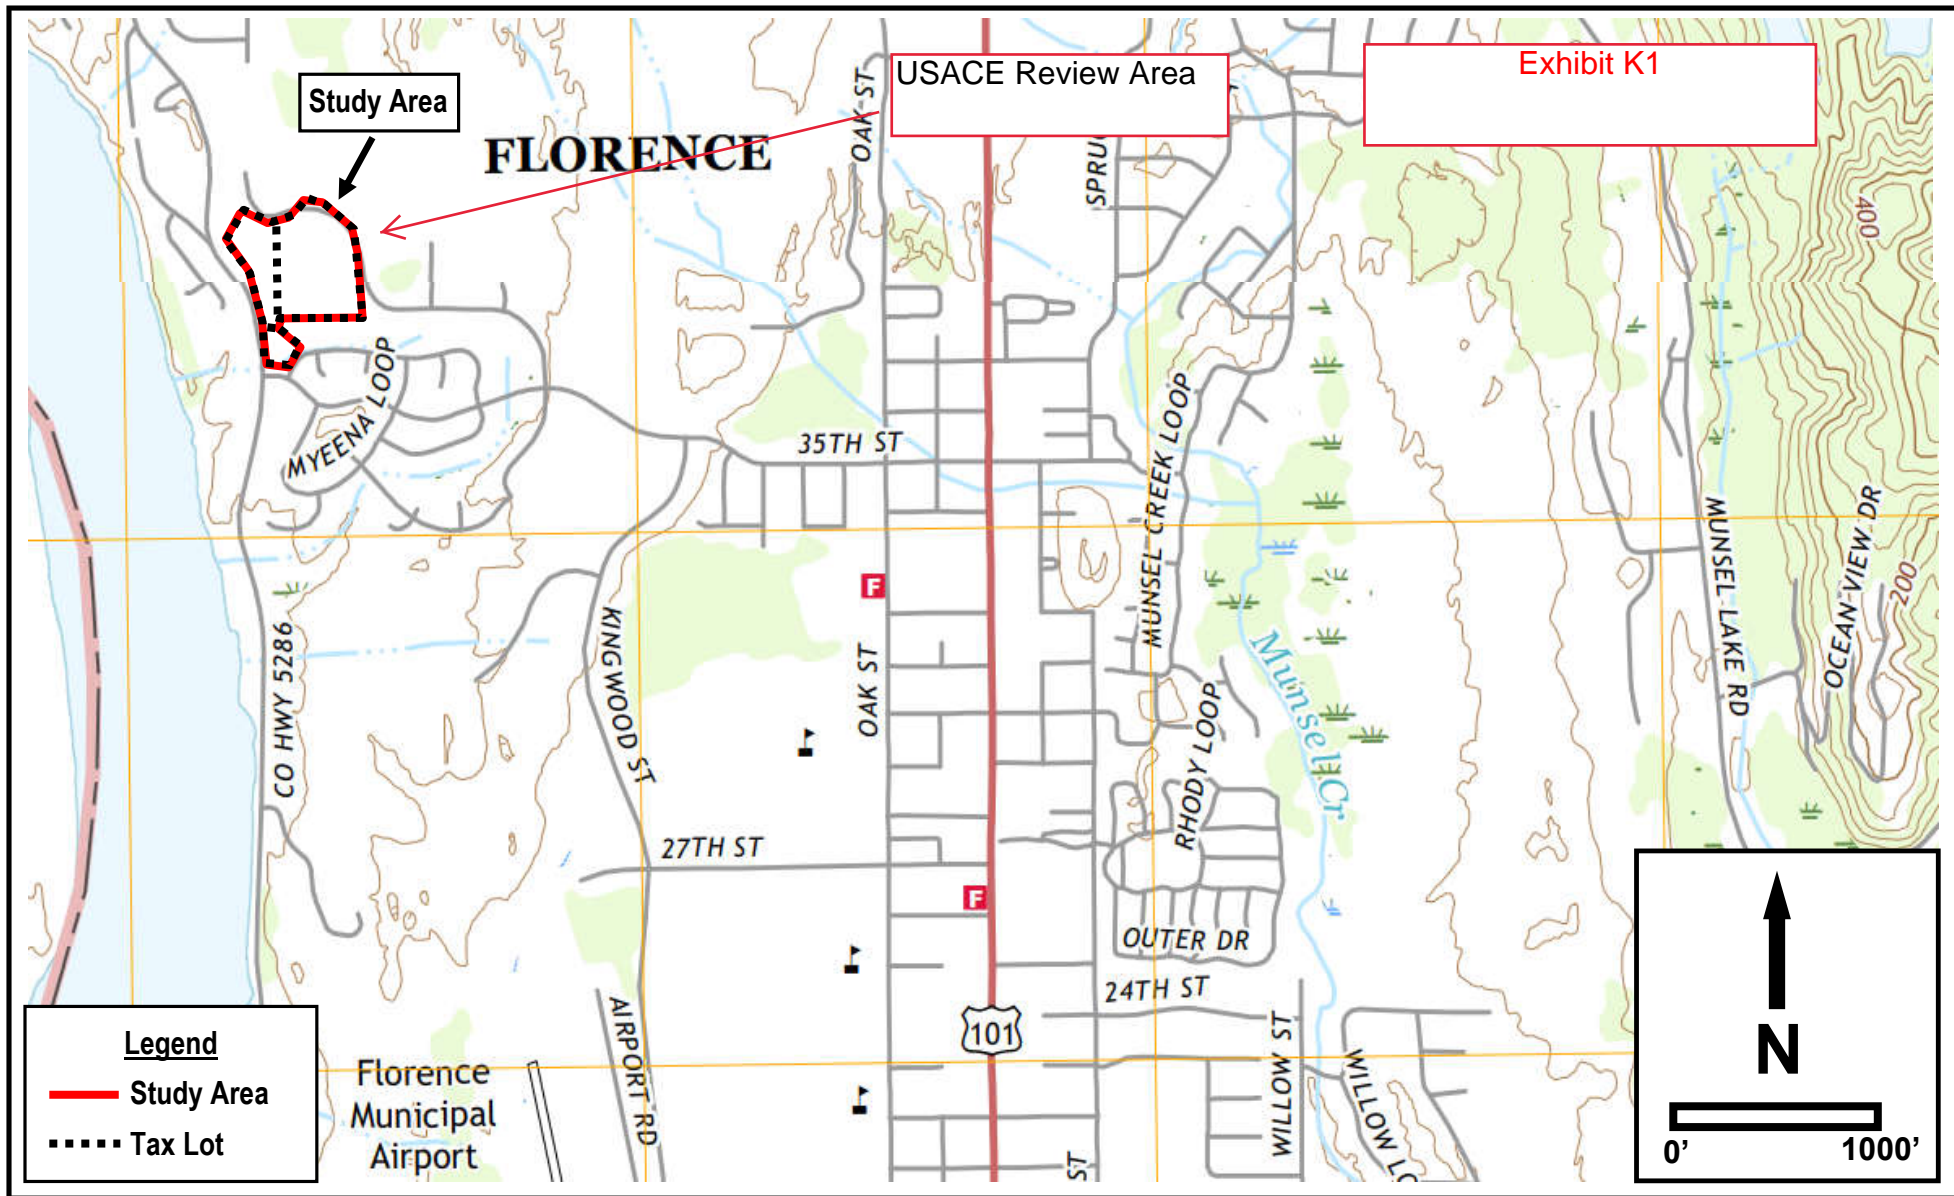

For: William D. Abadie

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
Ditch 1	0.03	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch 1 is located in the south western portion of the Review Area. Based on historic aerial imagery and topographic maps, there is no evidence the ditch is a relocated tributary, was constructed in a tributary, or was constructed in an adjacent wetland; therefore, the ditch meets the (b)(5) exclusion pursuant to the NWPR.
Ditch 2	0.01	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch 2 is located in the eastern portion of the Review Area. Based on historic aerial imagery and topographic maps, there is no evidence the ditch is a relocated tributary, was constructed in a tributary, or was constructed in an adjacent wetland; therefore, the ditch meets the (b)(5) exclusion pursuant to the NWPR.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

- ☒ Information submitted by, or on behalf of, the applicant/consultant: [Wetland Memo Describing Existing Conditions of Site A in Florence, Oregon dated September 14, 2020](#)

This information is sufficient for purposes of this AJD.

Rationale: The requestor utilized the methods described in the U.S. Army Corps of Engineers 1987 wetland delineation manual and Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Western Mountains, Valleys, and Coast Region to determine the boundaries of the waters within the Review Area.

- ☐ Data sheets prepared by the Corps: [N/A](#)
- ☒ Photographs: [Aerial: Google Earth accessed June 30, 2021](#)
- ☐ Corps site visit(s) conducted on: [N/A](#)
- ☐ Previous Jurisdictional Determinations (AJDs or PJDs): [N/A](#)
- ☐ Antecedent Precipitation Tool: [provide detailed discussion in Section III.B.](#)
- ☐ USDA NRCS Soil Survey: [N/A](#)
- ☐ USFWS NWI maps: [N/A](#)
- ☒ USGS topographic maps: [USGS Topoviewer accessed June 30, 2021](#)

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
