

**CITY OF FLORENCE**

## Miller Park Play Structure Replacement Project

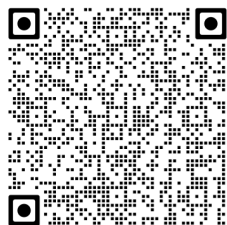

**How to Contribute** — Visit [www.ci.florence.or.us](http://www.ci.florence.or.us) for full details on how to contribute towards the Miller Park Play Structure Replacement Project.

*Donations made to the City for this project are tax deductible.*

**About the Project** — The City of Florence is in the planning stages for replacing the play structure at Miller Park, known as 'Fort Miller,' which was dedicated in June 1987. The new play structure will be inclusive, meeting ADA standards so that children of all abilities can engage and play on the new structure. It will be designed for children ages 5-12.

Replacement and installation of the new play structure will be funded through a combination of grants and donations. The donations received, along with labor from staff and volunteers, will be used for the local match requirements of the grants the City is applying for this year.
